

Schedule Gap Filler Tool Rights

Last Modified on 02/05/2025 3:10 pm CST

Staff use **Schedule Gap Filler** to assign students with empty instructional periods in their schedule to a selected course.

To learn how to use this tool, see the [Schedule Gap Filler](#) article.

Schedule Gap Filler ☆
Scheduling & Courses > Load Schedules > Schedule Gap Filler

Student Schedule Gap Filler

This tool fills the selected sections to the students' schedule which has empty instructional scheduling gaps. This tool will always fill students to the section which has largest number of open seats if there are more than one section available for students' schedule gaps. Only the courses with sections having empty seats will be listed in the course drop down box. The term-period grid will be updated automatically when a course and corresponding sections are selected/unselected. After filling the students' schedule gap, a report will be generated to list actions taken for each student and the selected sections' information. Schedule Gaps in terms prior to the entered Effective Date will not be affected.

Which students would you like to include in the report?

Grade All Students
09
10
11
12

Ad Hoc Filter ▼

* Effective Date 07/01/2025
