

Student Gap Scheduler Tool Rights

Last Modified on 12/23/2025 1:20 pm CST

Staff use **Student Gap Scheduler** to find students without a course in a selected portion of their schedule. These students appear in search results, from which staff can select each student individually and fill their gaps using Walk-in Scheduler.

See the [Student Gap Scheduler](#) article to learn how to use this tool.

Student Gap Scheduler

Scheduling & Courses > Load Schedules > Student Gap Scheduler

Student Gap Scheduler

This tool searches for students with an empty instructional hole in their schedule, and then either builds a report, or allows them to click on the student and fix the gap using the walk-in scheduler. The tool allows the user to pick the periods to look for gaps, and a grade or ad-hoc filter for limiting the students. The periods are listed in the order of period sequence, please make sure the period sequence starts from 1 and increase by 1 for the following periods. Summary report lists students' gap periods. Detail report lists the selected schedule grid, booked periods marked as X, the gap periods shown as shaded cell. Selected terms that fall before the entered Enrollment Effective Date will not appear in the report.

Which students would you like to include in the report?

Grade
09
10
11
12

Ad Hoc Filter

* Enrollment Effective Date

Which report type would you like?
Summary report lists students' gap periods.
Detail report lists students's schedule in the selected schedule grid.
