# Responsive Schedule Section Builder Tool Rights

Last Modified on 04/01/2025 10:47 am CDT

The **Responsive Schedule Section Builder** is used to add and manage responsive course offerings.

Responsive Scheduling allows schools to flexibly schedule special focused instruction time. This affects all areas of a school. Review the Responsive Scheduling articles to learn more about the planning and setup needed to accommodate Responsive Scheduling.

To learn how to use the Responsive Schedule Section Builder tool, see the Responsive Schedule Section Builder article.

Scheduling & Courses > Responsive Scheduling > Responsive Schedule Section Builder

Related Tool Information:

- **Responsive Scheduling** impacts all areas of Campus. Review the articles in Responsive Scheduling to learn about considerations and setup before implementing Responsive Scheduling in your district.
