Tool Search: PAsecureID Import

The PA SecureID Import takes in a PA SecureID Extract CSV file, and for each record, updates the stateID of the corresponding student in the Campus database to match the imported stateID. It then warns of potential misinput when the student in the import file and in the database don't match on other key identifiers.

See the [PA Secure ID Extract](#) article for information on the matching report for this import.

PAsecureID Import

Logic

The PA SecureID Import expects a comma-delimited file that resembles the PA SecureID Extract. Each row should be 16 columns wide, and each column should correspond in order to the 16 columns in the Extract. When provided a file, the import iterates through one row at a time. When a row has fewer than 16 columns, or when the row's stateID is left null, an error is logged, and the importer moves to the next row. The Importer reads the values from the following columns (index starting at 1):

- 4. lastName
- 5. firstName
- 6. middleName
- 8. gender
- 9. birthdate
- 11. studentID
- 12. ssn
- 14. stateID

The index of these columns must match that of the extract. No other columns are read by the importer.

The importer then attempts to find information on this student in the Campus database (the dbo.student view), searching by ssn when provided, otherwise by studentNumber (studentID). When more or fewer than one result is found, an error is logged, and the importer moves to the next row. When a unique result is found:

1. When a stateID is found in the database and matches the imported one, no change happens.
2. Otherwise, the stateID in the Campus database (the dbo.person table) is updated to the stateID provided.
 - When this is replacing an existing stateID in the database, this is counted toward the "updates."
 - When there was previously no stateID in the database, this is counted toward the "inserts."

Then:

1. When any of the following database fields mismatch those imported, a warning is logged indicating this mismatch, despite a successful stateID import.
 - firstName
 - lastName
 - birthdate

- gender
- 2. Otherwise, all of those fields match, and this is counted toward the "goodCount."

Upload Layout

The upload layout must be in a comma-delimited format.

Data Element	Description	Campus Interface
Record Type	Always reports a value of ID. <i>Alphabetic, 2 characters</i>	N/A
School Number	Reports the PDE 4-digit code of the school where the student is enrolled. This value reports from the Alt School Number field. If that field is not populated, the State School Number reports. When the student is not currently enrolled in a school, a value of 9999 reports. <i>Numeric, 4 digits</i>	School Information > Alt School Number School Information > School Detail School.number
Resident District	Reports the PDE 9-digit AUN code of the LEA fiscally responsible for the student. <i>Numeric, 9 digits</i>	District Information > District Detail District.number
Last Name	Reports the legal last name of the student, if populated, and the Report Protected Identities checkbox is marked on the Extract editor. If the Legal Last Name field is not populated, reports from the Last Name field. <i>Alphanumeric, 60 characters</i>	Identities > Identity Information > Information > Legal Last Name Demographics > Last Name Identity.legalLastName Identity.lastName
First Name	Reports the legal first name of the student, if populated, and the Report Protected Identities checkbox is marked on the Extract editor. If the Legal First Name field is not populated, reports from the First Name field. <i>Alphanumeric, 60 characters</i>	Identities > Identity Information > Information > Legal First Name Demographics > First Name Identity.legalFirstName Identity.firstName
Middle Name	Reports the legal middle name of the student, if populated, and the Report Protected Identities checkbox is marked on the Extract editor If the Legal Middle Name field is not populated, reports from the Middle Name field. <i>Alphanumeric, 60 characters</i>	Identities > Identity Information > Information > Legal Middle Name Demographics > Middle Name Identity.legalMiddleName Identity.middleName

Data Element	Description	Campus Interface
Suffix	<p>The additional identifier of the student's name, such as Jr, Sr, etc.</p> <p>If the Legal Suffix field is populated and the Report Protected Identities checkbox is marked on the Extract editor, information reports from that field.</p> <p><i>Alphanumeric, 10 characters</i></p>	<p>Identities > Identity Information > Information > Legal Suffix</p> <p>Demographics > Suffix</p> <p>Identity.legalSuffix Identity.suffix</p>
Gender	<p>The student's gender.</p> <p>If the Legal Gender field is populated and the Report Protected Identities checkbox is marked on the Extract editor, information reports from that field.</p> <p><i>Alphanumeric, 1 character, M or F</i></p>	<p>Identities > Identity Information > Information > Legal Gender</p> <p>Demographics > Gender</p> <p>Identity.legalGender Identity.gender</p>
Date of Birth	<p>The student's date of birth.</p> <p><i>Date field, 10 characters, MM/DD/YYYY</i></p>	<p>Demographics > Birth Date</p> <p>Identity.birthDate</p>
Grade Level	<p>The student's grade level of enrollment.</p> <p><i>Alphanumeric, 3 characters</i></p>	<p>Enrollments > General Enrollment I</p> <p>Enrollment.grade</p>
Student ID	<p>The student's local student number.</p> <p><i>Numeric, 10 characters</i></p>	<p>Demographics > Person Identifiers</p> <p>Person.studentNumber</p>
SSN	<p>The student's Social Security number.</p> <p><i>Numeric, 11 digits, XXX-XX-XXXX</i></p>	<p>Demographics > SSN</p> <p>Identity.SSN</p>
Race Ethnicity	<p>The student's indication of race.</p> <p><i>Numeric, 1 character</i></p>	<p>Demographics > Race/Ethnicity</p> <p>Identity.race</p>
State ID	<p>The student's state-assigned identification number.</p> <p><i>Numeric, 10 digits</i></p>	<p>Demographics > Person Identifiers</p> <p>Person.stateID</p>
District Number	<p>Reports the PDE 9-digit AUN code of the LEA educating the student.</p> <p><i>Numeric, 9 digits</i></p>	<p>Enrollments > State Reporting Field</p> <p>District Information > State District</p> <p>Enrollment.residentDistrict District.number</p>
Year	<p>Reports the end year of the selected school year in the Campus toolbar.</p> <p><i>Numeric, 4 digits</i></p>	<p>System Administration > Calendar</p> <p>Calendar.endYear</p>
