

# Cross-Site Enrollment Setup Tool Rights

Last Modified on 12/14/2025 8:45 pm CST

Cross-Site Enrollment allows schools to manage situations such as tracking and reporting on students who attend courses offered by other schools, or allowing students from other schools to take classes they offer at their own school.

Staff such as Counselors, Curriculum Managers and Schedulers can use the Cross-Site Enrollment Setup tool to set up courses and sections to offer and map courses to other schools that offer Cross-Site courses.

See the [Cross-Site Enrollment Setup](#) article to learn more about using these tools. The [Cross-Site Enrollment Overview](#) article outlines the entire process.
