Cross-Site Enrollment Interdistrict Data Sync Log

Last Modified on 02/14/2025 1:38 pm CST

Cross-Site Enrollment allows schools to manage situations such as tracking and reporting on students who attend courses offered by other schools, or allowing students from other schools to take classes they offer at their own school.

Staff such as Counselors, Curriculum Managers and Schedulers can use the Cross-Site Enrollment Interdistrict Data Sync Log to see all the changes made via the Cross-Site Enrollment Data Sync job and address any scheduling problems.

See the Cross-Site Enrollment Interdistrict Data Sync Log article to learn more about using these tools. The Cross-Site Enrollment Overview article outlines the entire process.

Let us know what you think! Submit feedback for the Tool Rights Catalog by posting in the Tool Rights Catalog forum.
