

# Cross-Site Enrollment Interdistrict Data Sync Log Tool Rights

Last Modified on 04/01/2025 1:13 pm CDT

Cross-Site Enrollment allows schools to manage situations such as tracking and reporting on students who attend courses offered by other schools, or allowing students from other schools to take classes they offer at their own school.

Staff such as Counselors, Curriculum Managers and Schedulers can use the Cross-Site Enrollment Interdistrict Data Sync Log to see all the changes made via the Cross-Site Enrollment Data Sync job and address any scheduling problems.

See the [Cross-Site Enrollment Interdistrict Data Sync Log](#) article to learn more about using these tools. The [Cross-Site Enrollment Overview](#) article outlines the entire process.
