

Course Assessments Tool Rights

Last Modified on 02/19/2025 10:05 am CST

Courses Assessments lists the assessments that are associated with a course. These can be standard tests, district tests or tests that the teacher scores. A teacher-scored test is determined by the Test Structure.

See the [Course Assessments](#) article for details on adding courses.

The screenshot shows the 'Course Assessments' interface for '0011 Core English I'. At the top, there are navigation links: 'Scheduling & Courses > Courses > Course Assessments' and a 'Related Tools ^' button. Below the course name, there are 'Save', 'Delete', and 'New' buttons. The main section is titled 'Assessment Alignment Editor' and contains a table with columns for 'Standard', 'Assessment Name', 'Start Date', 'End Date', and 'Copies Forward'. The table lists three assessments: '6. English/Writing (36 pts)', 'ACCESS 2012', and 'TEAE Writing Grade 12'. The first two rows have red 'X' icons in the 'Standard' column, indicating they are teacher-scored tests. Below the table is an 'Assessment Alignment Detail' section for 'ACCESS 2012', which includes a 'Test' dropdown menu and a checked 'Copies Forward' checkbox.

Course Assessments

Users also need at least **Read** rights to Section Information.

Available Tool Rights
