# Alternate ID Lookup Tool Rights

Last Modified on 03/12/2025 9:36 am CDT

This tool is part of the **Campus Workflow Suite**. A student can be given an Alternate ID via this tool, or an additional alternate ID if needed. As an example, if a student forgot their RFID-enabled badge, a temporary one can be given to them.

See the Alternate ID Lookup article to learn more about how this tool is used. See the Scanning articles to learn more about how to set up scanning locations, configure and generate badges for scanning, and generate scanning-related reports.

Student Information > General > Alternate ID Lookup

Users wishing to work with Alternate IDs must have RWAD tool rights to the Alternate ID tool. Not having one of those rights will result in a Permissions Error.

Suggested User Groups

Some groups may only need Read access to the information displayed in this tool.

- Attendance
- Front Office

See User Groups and Suggested Roles for more information.
