Technical Information

See the Technical Information - Release Pack Campus.2511 (https://kb.infinitecampus.com/help/technical-information-release-pack-campus2511) article for a list of schema changes in this release.

Academic Planning

Academic Planning Cross-Site Course Credit Update (SIS-184689)

An issue giving double credits to students enrolled in cross-site courses has been corrected to award only one credit for a cross-site course.

Path: Student Information > Academic Planning > Progress

Academic Planning Batch Program Assignment Update (SIS-186885)

Currently, when selecting to add all programs to students in the Batch Program Assignment Wizard (https://kb.infinitecampus.com/help/batch-program-assignment-wizard) students are also assigned all flags. This issue has been corrected.

Path: Student Information > Program Administration > Batch Program Assignment Wizard

Activity Registration

Activity Registration & School Store Maintenance (SIS-185485)

The following updates have been made to the Activity Registration (https://kb.infinitecampus.com/help/student-information-activity-registration) and School Store (https://kb.infinitecampus.com/help/school-store) tools:

- Fixed an issue caused by empty Attribute fields when adding products in the School Store.
- Fixed an error that made users unable to view the roster of a canceled Activity.

Path: N/A

Assessment

Import of Blank Test Scores (SIS-175584)

Child tests failed to import into the Assessment Center (https://kb.infinitecampus.com/help/assessment-score-data-import) when they included scores, and the parent test had null values in some score fields. This issue has been resolved. When importing any test score data with a blank/NULL value for either Raw Score or Scale Score, those fields are set to NULL in the dbo.testScore table. Errors are no longer generated, and test score records are created without issues.

Path: Student Information > Assessment Administration > Assessment Center

Unable to Read LF Line Breaks in CSV Files (SIS-182618)

Assessment Center (https://kb.infinitecampus.com/help/assessment-score-data-import) functionality was impacted when users tried to import a CSV file that included LF line breaks instead of CR LF line breaks. This

issue was resolved. Users can import CSV files created on a Linux, Unix, or macOS system that include LF line breaks without issue.

Path: Student Information > Assessment Administration > Assessment Center

Mapping Does Not Save Without a Header Row (SIS-185024)

When the "Source File Includes Header" checkbox was not selected in Step 2 - Data Detail File (https://kb.infinitecampus.com/help/assessment-score-data-import), the mappings saved in Step 3 - Data Mapping would be cleared when navigating to another step. This issue has been resolved. Mappings in Step 3 are saved regardless of whether the "Source File Includes Header" box is checked in Step 2.

Attendance

Attendance – DIS Error Log Cleanup (SIS-184281)

We have corrected an issue with syncing records. We now match records by person and calendar, updating the identifier (GUID) when needed.

Path: System Settings > DIS Error Log

Campus Document Repository Services

Timeout Added to Docstore Retrieval (SIS-185610)

A timeout was added to any fetching of docstore files so that Tomcat threads will not hang and potentially cause an application outage.

Path: N/A

Docstore Timeouts Added to Prevent Threads from Locking (SIS-186908)

Timeouts were added to prevent Tomcat from running out of threads from waiting too long for a new docstore share and thus potentially causing an outage.

Path: N/A

Campus Instruction

Teaching Center - Sections that Meet Across Periods (SIS-185580)

Previously, users were unable to rename the Teaching Center tile for a section that met across multiple periods. This has been corrected.

Path: Instruction > Overview > Teaching Center

Campus Learning

Submission Scoring Screen (SIS-183211)

The Submission Scoring Screen has been updated so that buttons realign properly to accommodate various screen sizes.

Path: Instruction > Curriculum > Curriculum List > click an assignment with submissions > Score

Viewing Content in Curriculum Library Causing Page to Crash (SIS-186575)

Viewing content in the Curriculum Library is causing the page to crash, preventing users from correctly accessing and using this tool. This issue was corrected.

Path: Instruction > Curriculum Planning > Curriculum Library

Cross-Site Enrollment

Visit Is Cross-Site Enrollment Available in My State? (https://kb.infinitecampus.com/help/is-cross-site-enrollment-available-in-my-state) article to see if Cross-Site Enrollment is available for your state.

Cross-Site Enrollment - Interdistrict Attendance Data Syncing (SIS-183949) **[Enhancement]**

To ensure all attendance data is available to Home Schools and Serving Schools (https://kb.infinitecampus.com/help/attendance-information-for-cross-site-students), when a loss of data occurs at either school, the data syncing workflow used by Managed Services (on an as needed basis) follows other attendance workflow updates, where the Serving School is the source of truth.

- After determining how many days back the attendance will be resynced, data from the serving school is sent to the home school.
- The home school processes the data so the attendance records match the serving school's data.
- Data is sent from the Home School to the Serving School.
- Any attendance records not sent from the Serving School to the Home School are deleted.

Path: Attendance Workflow for Cross-Site Enrollment

Cross-Site Enrollment - Course Mapping with a NULL GPA Weight (SIS-184311)

An error was returned when attempting to map a Cross-Site Enrollment course (https://kb.infinitecampus.com/help/cross-site-enrollment-setup) when the Course GPA Weight was NULL. This has

been corrected.

Path: Scheduling & Courses > Cross-Site Enroolemt > Cross-Site Enrollment Setup; Scheduling & Courses > Courses > Course Information

Cross-Site Enrollment - Teacher Attendance Present Value (SIS-184844)

When a teacher at the Serving School marks a Cross-Site Student absent (https://kb.infinitecampus.com/help/attendance-information-for-cross-site-students), that attendance record is transferred to the Home School and cannot be edited. When the same teacher updates that student's absence to present, the home school attendance record is deleted and can be re-entered with any value. This has been corrected.

Now, when a teacher changes an attendance record for a Cross-Site student from absent to present, that change is transferred to the home school as a Present status and cannot be modified at the Home School.

Custom

SSRS Reports - Enforce Use of District Parameter for Validations on State Data Set (SIS-186649) **[Enhancement]**

SSRS reports (https://kb.infinitecampus.com/help/ssrs-report-configuration) written by the state and pushed down to districts will enforce a district parameter to ensure a district is only able to see data for users in their district or that they have access to view.

Path: System Settings > Custom Data and Links > SSRS Report Configuration

Data Change Tracker

Data Change Tracker Report – Old Value/New Value Columns Updated to Ensure Passwords Redacted (SIS-185614)

Data Change Tracker (https://kb.infinitecampus.com/help/data-change-tracker-report) was updated to ensure passwords are always redacted in the Old Value and New Value columns if values are imported into the database.

Path: System Settings > Data Change Tracker > Data Change Tracker Report

DIS/SIF

DIS Failing to Sync if Two Enrollments Exist in Same Calendar, Same Start Date (SIS-184285)

DIS was failing to properly sync enrollment records to the state if two or more enrollment records

for the student were in the same calendar with the same start dates. This issue was corrected

Path: N/A

State Edition - Program Records Sync Between District and State Editions (SIS-184615)

It was discovered that program records did not accurately reflect the records held at the district due to a mismatched ID, causing orphaned data.

To ensure all program data is correctly synced from district to state edition, State Edition users should perform a Batch Resync to clean up any potential orphaned program data.

Path: System Settings > Data Interchange Administration > Resync State Data - Batch

State Edition DIS Object Trigger Update - Title1 and StudentMilitaryConnectionsSummary (SIS-185106) **[Enhancement]**

The logic for syncing the Title1 and StudentMilitaryConnectionsSummary database objects between the district and state editions was updated to send data via a database event change, in addition to the existing syncing methods of forcing a manual sync or saving on the UI.

Arizona - Address Logic Updated for Student Education Organization Associations (SIS-180173)

The logic for reporting addresses has been updated for the Student Education Organization Associations (https://kb.infinitecampus.com/help/arizona-ed-fi-e530778) as follows:

For Home and Mailing Addresses

- Addresses marked as Private are not reported.
- The most recent Household Membership Start Date reports first, followed by the most recent Household Location Start Date, followed by the oldest AddressID.

For Home Addresses

The most recent address (latest Household Membership Start Date) reports based on the following priority order:

- Primary Households with Physical checked on Household Location associated with a Household Membership with a NULL End Date.
- Secondary Households with Physical checked on Household Location associated with a Household Membership with a NULL End Date.
- All Households with Physical checked on Household Location where the Household Membership End Date is within the configured year.
- When no address can be found, do not report.

For Mailing Addresses

The most recent address (latest Household Membership Start Date) reports based on the following priority order:

- Primary Households with Mailing checked on Household Location associated with a Household Membership with a NULL End Date.
- Secondary Households with Mailing checked on Household Location associated with a Household Membership with a NULL End Date.
- All Households with Mailing checked on Household Location where the Household Membership End Date is within the configured year.

Iowa

Iowa-SIF-Cumulative GPA Update (SIS-178996)

The 'CumulativeGPA' data element on the Student Academic Record was updated to report a student's transcript-based cumulative GPA:

- Takes 'Unweighted GPA' on Transcript multiplied by the 'GPA Weight' for each course on the student's transcript.
- When 'Unweighted GPA' is null, it uses the 'GPA Value' multiplied by 'GPA Weight' for each course on the student's transcript.
- Sums the above and divides by the total number of credits (GPA Weight) across all transcript records.
