

# Assessment Tool Rights

Last Modified on 12/12/2025 10:52 am CST

Staff use the **Assessment** tool to view, enter or modify student results for state, district and national assessments.

See the [Assessment](#) article to learn more about how this tool is used. See the [Assessment Center](#) article to learn about the setup required to properly display the test fields in the Assessment tool.

The screenshot shows the 'Assessment' tool interface for a student named Abegg, Dylan V. The top navigation bar includes 'Student Information', 'General', and 'Assessment', with 'Assessment' being the active tab. The student's information is displayed, including Student #: 171900001, Grade: 11, DOB: 09/15/2007, and Counselor: Joy Counselor. Below this, there are icons for Medical Condition(s), HS Graduation, Custody Restriction, Peer Tutor, and NHS. The 'Test Scores' section lists various assessments with their dates, scale scores, and results. The 'Computation / Operations' section is expanded, showing fields for Date (03/31/2025), Raw Score (232), Scale Score (232), Proficiency Level (PRO: Proficient), Result (P:Proficient(220.000)), and Result Level.

*Student Information > General > Assessment*

## Related Tool Alert - Populating Student Assessment Data:

- [Records Transfer](#): Scores for transfer students may be populated to Assessments through the **Assessment Data Import Wizard** in this tool.
- [Assessment Center](#): Districts/schools can import test files containing multiple student records by using the **Data Mapping and Importing** feature of this tool.
- [Assessment Center - Test Detail](#): Tests can be set up as Teacher-Scored and configured

so that teachers can enter scores in the Instruction Post Grades tool.

## Available Tool Rights

R	W	A	D
View student assessment records.	Modify existing student assessment records.	Add new student assessment records.	Remove student assessment records.

## Suggested User Groups

Some groups may only need Read access to the information displayed in this tool.

- [Front Office](#)
- [Principal](#)

See [User Groups and Suggested Roles](#) for more information.
