

Waiver Tool Rights

Last Modified on 12/19/2025 3:21 pm CST

The **Student Waiver** tool enables schools to track a student's non-participation in an activity or a variance in the student's assigned resources.

See the [Waiver](#) article to learn more about how this tool is used.

The screenshot shows the 'Student Waiver Editor' interface. At the top, it displays student information: 'Student, Addison', 'Student #: 832513', 'Grade: 10', 'DOB: 07/26/2009', and 'Counselor: Judy Staff'. Below this, there are tabs for 'Immersion', 'Transportation Opt-Out', and 'HS Grad Req eff 2023-24'. The main area is titled 'Student Waiver Editor' and contains a table with columns 'Waiver' and 'Date'. The table has one row: 'EL Instruction' with the date '09/01/2024'. Below the table is a 'Waiver Detail' section with fields for 'Waiver Type' (set to '1: EL Instruction'), 'Waiver Status' (set to '1: Granted'), and two date fields: '*Date' (set to '09/01/2024') and 'Grant/Denial Date' (set to '09/15/2024').

Available Tool Rights

R	W	A	D
Access and view the Waiver tool.	Edit existing Waiver details.	Save new Waiver records.	Delete Waiver records.

Suggested User Groups

Some groups may only need Read access to the information displayed in this tool.
