

# Student Enrollments Tool Rights

Last Modified on 03/28/2025 2:20 pm CDT

The Enrollments tool is used to enter and manage student enrollments inside and outside of the district. This tool is found in Student Information > General > Enrollments and in Census > People > Enrollments.

To learn how to use this tool, see the [Enrollments](#) article.

Additional rights can be granted in each section of the Enrollment tool as detailed below. See [Enrollment Tool Right Recommendation](#) at the end of this article for more information.

The Census > People Enrollments tool and the Student Information > General > Enrollments tool contain the same functionality and display the same information.

## General Enrollment Information

The General Enrollment Information editor displays when an Enrollment is selected from the Enrollment Editor, or when a New enrollment is being added. The School of Accountability field is used in Civil Rights Data Collection reporting. Not all users need rights to this field.

## Enrollment History Report

The Enrollment History report lists all enrollments a student has had at the district.

Grade Level  Local Grade Level Code  State Grade Level Code

## Available Tool Rights - Enrollment History

<b>Enrollment History</b>			
Allows the user to view the student's enrollment history information.	Allows the user to edit existing enrollment information and enrollment history information.	Allows the user to add enrollments and enrollment history information.	Allows the user full access to all options available on the enrollment tab.

## Enrollment Tool Right Recommendation

Due to the complex nature of the Enrollments access rights, when feasible, access rights to the Enrollments editors should be set in the same manner as the editor sub-rights.

If RWAD is assigned to the State Reporting editor, sub-rights such as Ward of State, Meal Status, Migrant, etc. should also be RWAD.

Modifying specific sub-rights to control field-level access is possible, but may warrant additional user testing to ensure that setup complies with district, state and federal privacy standards.

Consider the following scenarios:

### Singular Access to the Enrollment Editors

If a user can have the same level of access to all editors/sub-rights, assign the user R or RW rights to that editor of the entire Enrollments tab, as applicable.

A and D rights only affect the Enrollments tab and the Enrollment History rights. Choosing A or D

on any other Enrollment editors/sub-rights has no affect.

With full access rights, the user is allowed to see and/or edit all Enrollment editors and fields. The user is also able to add and delete current and historical enrollments.

*Enrollments Rights*

## Varying Access to the Enrollments Editors and Sub-Rights

If a user needs varying levels of access to the Enrollments editors and sub-rights, the highest level of access rights assigned to any of those areas must also be assigned to the direct parent editor and to the Enrollments tab. Sub-rights cannot allow more access than the rights of the parent editor.

When rights are assigned to a parent area (editor or tab), the system always marks the child rights to reflect parent rights by default. This means that all areas that should be restricted from the user MUST BE manually removed.
