

Enrollment Start Status Setup/End Status Setup Tool Rights

Last Modified on 03/31/2025 1:34 pm CDT

The **Enrollment Start/End Status** tools are district level tools for districts that want to or need to create specific enrollment start and/or end statuses for **all the schools in their district** to use, then map them to state enrollment statuses for reporting purposes.

Very few people other than the System Administrator should need access to these tools.

To learn more about these tools as well as related setup needed, see the following articles:

- [Enrollment Start Status Setup](#)
- [Enrollment End Status Setup](#)

The [Enrollment Start Status Setup](#) and [Enrollment End Status Setup](#) articles contain important information regarding System Preferences and other tools in Campus that are impacted when districts create and use their own enrollment start and end statuses.

Enrollment Start Status Setup
