Post Grades to Transcripts

The Transcript Post tool takes scores from the Grade Book and posts them to the student's transcript. Scores from Grading Tasks or Standards marked as Post to Transcript and associated with a Credit or Standard group will post. There are three posting options:

- **Post Courses, Scores, & Credits by Term:** used to post scores and credits for any grading task or standard associated with a term or terms.
- **Post One-Time Grading Task or Standard:** used to post scores and credits for one-time tasks/standards that are scored once and are not associated with a term.
- **Post Courses and Scores Only for All Terms:** used to post scores only (no credits) for any task or standard.

This tool can be used multiple times without duplicating records, which prevents a score changed by a teacher in their gradebook from affecting a posted transcript record. After the Transcript Post process is complete, any necessary changes to scores need to be manually updated on the student's transcript. Credit information can be added to the records created using the first option and selecting the applicable terms and credit groups.
