

Conditions Tool Rights

Last Modified on 12/23/2025 1:13 pm CST

Health Office staff use the **Conditions** tool to record all the medical conditions that have been reported for a student. Treatments given in school for a reported condition can also be recorded here.

See the [Conditions](#) article to learn how to use this tool.

The screenshot shows the 'Conditions' tool interface for a student named Dylan V. Abegg. At the top, there is a navigation bar with 'Student Information', 'Health', and 'Conditions'. The student's information is displayed: Student #: 171900001, Grade: 11, DOB: 09/15/2007, and Counselor: Joy Counselor. Below this, there are icons for various conditions: Medical Condition(s), HS Graduation, Custody Restriction, Peer Tutor, NHS, 504 Student, and All On-Site. A toolbar contains buttons for 'Save Condition', 'Delete Condition', 'New Condition', 'New Treatment', and 'Print'. The main area is titled 'Health Conditions' and lists several conditions: 'Attention-deficit hyperactivity disorder, combined type', 'Allergy to peanuts', 'Abrasion, unspecified thigh, initial encounter', 'Daily Bandage Wrappings', and 'Disorder of written expression'. At the bottom, there is a 'Health Condition' form with fields for 'Code Search', 'Description Search', '*Code' (V15.01), '*Description' (Allergy to peanuts), '*Start Date' (06/24/2024), 'End Date', '*Status' (N: Not Resolved), and '*Initials' (jd).

Student Health Conditions

The Conditions available to select for a student are usually set up as part of a district's implementation. An Administrator or Health Administrator may be responsible for future maintenance of condition information in the [Condition Setup](#) tool.

This tool displays in both **Student Information > Health** and **Health Office > Student**

Health.

Student Health Tool Rights Assignment: When tool rights are assigned to *Student Information > Health > Conditions*, the same tool rights are also assigned to *Health Office > Student Health > Conditions*.

Available Tool Rights

R	W	A	D
Access and view a student's recorded health conditions.	Modify existing recorded health conditions.	Add health conditions for a student.	Delete a student's condition information.
