[Available Tool Rights](#) | [Suggested User Groups](#)

Health Office staff use the **Daily Health Log** tool to record the results of a health check performed on a student on any given day.

To learn how to use this tool, see the [Daily Health Log](#) article.

The screenshot shows the 'Daily Health Log' tool interface. At the top, there's a breadcrumb trail: **Student Information > Health > Daily Health Log**. Below this, a student profile for Dylan V. Abegg is displayed, including their student number (171900001), grade (11), date of birth (09/15/2007), and counselor (Joy Counselor). A list of medical conditions and restrictions is shown, such as 'Medical Condition(s)', 'HS Graduation', 'Custody Restriction', 'Peer Tutor', 'NHS', '504 Student', and 'All On-Site'. A 'Related Tools' button is also present.

The main section contains filters for 'Start Date', 'End Date', and 'Status'. Below these is a table with the following data:

Date ↓ 1	Time ↓ 2	Status
03/24/2025	10:02 AM	HS3: Approved for Classroom

At the bottom of the table, there are navigation arrows and a page indicator '1 - 1 of 1 items'. Below the table, there are two buttons: 'New' and 'Documents'.

Student Information > Health > Daily Health Log

Daily Health Log information can be made viewable on the Campus Parent and Campus Student portals by marking the Daily Health Log option in [Portal Preferences](#).

This tool displays in both **Student Information > Health** and **Health Office > Student Health**.

Student Health Tool Rights Assignment: When tool rights are assigned to *Student Information > Health > Daily Health Log*, the same tool rights are also assigned to *Health Office > Student Health > Daily Health Log*.

Available Tool Rights

R	W	A	D
View a student's existing health log records.	Modify existing health log records.	Add health log records for a student	Delete student's health log information.
