Health Office staff can view past years' records of a student's health office visits in the **Office Visits History** tool.

This is a Read Only tool. Users only need R (Read) rights to view this information.

For more information about this tool, see the [HOV History](#) article.

The screenshot shows the 'Office Visits History' tool interface. At the top, there is a breadcrumb trail: [Student Information](#) > [Health](#) > [Office Visits History](#).
