Last Modified on 02/02/2026 7:16 am CST

The four tools described in this article are used to manage information for students who have **Personal Learning Plans**. Personal Learning Plans represent educational modifications that are being made to accommodate an individual student's needs, as determined by an evaluation. Counselors or Special Education Staff can use these tools to manage students with PLP's to which they have been assigned.

See the [PLP Caseload](#), [PLP Contact Log](#), [PLP Documents](#), and [PLP Team Members](#) articles to learn how to use these tools.

## PLP Caseload

This tool gives users the ability to view information about students on their caseload for whom they are either a Team Manager or a Service Provider. See the [PLP Caseload](#) article for more information.
