

Federal/State Program Update Wizard Tool Rights

Last Modified on 12/22/2025 3:05 pm CST

The **Federal/State Program Updater** (FSPU) allows State Edition and District Edition users to import federal or state program participation data using an import file.

See the [Federal/State Program Updater](#) article to learn more about this tool.

The screenshot shows the 'Federal/State Program Update Wizard' interface. At the top, there is a breadcrumb trail: 'Student Information > Program Administration > Federal/State Program Update Wizard'. Below this, the title 'Federal/State Program Updater' is displayed. A descriptive text box states: 'The Federal/State Program Updater allows federal or state program participation data to be added or edited using an import file. Federal or state program participation data records can also be added, edited, or deleted using an Ad hoc filter. For programs that allow an Owner to be specified, edit, delete, and overlapping record logic will be limited to records owned by this District or State Edition.' Below the text, there are several sections: 'Select Federal Program:' with a dropdown menu showing '21st CCLC'; 'Select Mode:'; 'Import File:' with a radio button selected for 'Add/Edit Participation'; and 'Ad Hoc Filter:' with three radio buttons: 'Add Participation', 'Delete Participation', and 'Edit Participation'. A 'Next' button is located at the bottom left. The entire interface is titled 'Federal/State Program Update Wizard' at the bottom.

Full (Read, Write, Add, Delete) Tool Rights must also be assigned to the Federal/State Program you want to update.

Available Tool Rights
