- Page navigation automatically scrolls users to the top of a list
- Tree view now matches the dark theme appropriately within the search panel

Path: N/A

Accessibility – Email Page Improvements (SIS-183651) **[Enhancement]**

The following updates were made to improve the accessibility of the email page:

- Aria-invalid label is not present on email fields on initial page load
- Autocomplete ON fields respect browser settings correctly
- Autocomplete OFF fields respect browser settings correctly
- Placeholder text removed, moved to sublabel
- All fields/labels announce properly on screen reader
- All code snippet copy buttons function correctly
- Styles updated, use new page/card template

Path: N/A

Accessibility Updates (SIS-183657) **[Enhancement]**

The following updates were made to improve accessibility:

- `role="group"` and `aria-label="action bar"` added to component and now screen readers announce properly
- Separate button groups announce as lists, proper html list markup applied to each button element
- Card Footer added

Path: N/A

Instruction - Accessibility Improvements (SIS-184600)

Various accessibility improvements have been made to the Post Grades tool, Grade Calc Options, the Roster, Seating Charts, Attendance, and the Message Center, including screen reader labels, color contrast, and keyboard navigation.

Path: various tools in Instruction

Campus Student & Parent - Additional Accessibility Fixes (SIS-187353) **[Enhancement]**

Additional accessibility updates have been made to various tools in Campus Student (https://kb.infinitecampus.com/help/campus-student-portal) and Campus Parent (https://kb.infinitecampus.com/help/campus-parent-portal).

Path: Campus Student, Campus Parent

Instruction - Link Accessibility (SIS-187393) **[Enhancement]**

Various tools in Instruction, such as Message Center and the Roster, have been updated so that links to student details and other information are properly accessible.

Path: Tools throughout Instruction

Accessibility – User Notification Improvements (SIS-187643)

To improve accessibility, user notifications now scroll properly with a mouse/keyboard at all screen width breakpoints.

Path: N/A

Accessibility – Froala Rich Text Editor Improvements (SIS-187734) **[Enhancement]**

The following updates were made to improve the accessibility of the Froala rich text editor:

- `aria-labelledby` attribute is now present, which will describe the dialog container on screen reader
- Closing modal now returns focus to invoking element (tooltip button)
- Close button now correctly announces w/ addition of `aria-label` attribute
- Modal dialog parent component now announces as modal dialog w/ addition of `role=dialog` and `aria-modal=true` attributes
- Modal dialog heading attributes now follow a logical descending ordering pattern
- Table row and column headers are now marked up appropriately as such w/the addition of `<th scope=row>` attribute
- Shortcuts modal now provides correct markup to text that was functioning as headings

Path: N/A

Activity Registration

Activity Registration & School Store Maintenance (SIS-186921)

The following updates have been made to the Activity Registration and School Store tools:

- Fixed an error where users could not open ambiguous optional forms in Campus Parent or Campus Student.
- Fixed an error where Summary Reports would generate the same report twice.
- Fixed a style error on the Comments message close button.

Assessments

Enter Date for All Error (SIS-179457)

When users selected 'Apply to All Test Date Fields' and 'Enter Date for All Students' while mapping a date field in the Assessment Center (https://kb.infinitecampus.com/help/assessment-center), the validation was not recognized. Data was applied only to the date column where the data was entered, and users could not proceed. This issue was corrected. The data is applied to the test date fields, and users can proceed to the next step without issue.

Path: Student Information > Assessment Administration > Assessment Center

Strip Leading Zeros Updated (SIS-179773)

Leading zeros displayed despite the 'Strip Leading Zeros' checkbox being selected when mapping data for import in the Assessment Center (https://kb.infinitecampus.com/help/assessment-center). This issue was corrected. When previewing the data in the user interface, leading zeros display, but zeros are stripped on import.

Path: Student Information > Assessment Administration > Assessment Center

Column Name Fields Truncated (SIS-185313)

The column name fields on Step 3 - Map Data (https://kb.infinitecampus.com/help/assessment-score-data-import#map-data) were truncated and difficult to read. This issue was corrected. The maximum character limit was increased, and the data in the dropdown fields now displays in full.

Path: Student Information > Assessment Administration > Assessment Center

Calendar

Calendar Wizard - Roll Forward Error (SIS-187451)

The logic for rolling calendars forward has been updated to be case-sensitive to address errors occurring when different school calendar names had similar names.

Path: Scheduling & Courses > Calendar Setup > Calendar Wizard

Campus Document Repository

Multiple SMB Shares Used by an App Stuck by Connection Timing Out (SIS-187574)

When an app uses multiple SMB shares, a connection to one of them can get stuck in an unrecoverable state if a connection timeout occurs. This issue was corrected.

Path: N/A

Campus Instruction

Instruction App Switcher Stretching Across Screen (SIS-187486)

The Instruction app switcher was incorrectly stretching across the entire screen. This issue was corrected.

Path: N/A

Campus Learning

LockDown Browser for Quizzes (SIS-181324) **[Enhancement]**

A new option has been added for quizzes to use the LockDown Browser program to prevent students from using other tools while they're taking a quiz.

To use LockDown Browser, the school first configures a Digital Learning Application connection to Respondus using LTI.

Once configured, teachers can enable LockDown Browser for an assignment with a Quiz. Students must download the LockDown Browser on their devices. Once students begin the quiz in Campus Student, they won't be able to use any other tools on their device or open other tabs or windows in their browser until they exit the quiz.

Path: Instruction > Settings > Digital Learning Applications Configuration; Instruction > Curriculum > Curriculum List

Rescoring an Edited Quiz (SIS-183625)

Previously, when a change was made to a quiz, the score was recalculated, even if the change was not related to scoring. Quizzes have been updated so that the score is recalculated only when a change is made to the quiz that affects scoring.

Path: Instruction > Curriculum List > Curriculum > open a quiz

Quizzes - Essay/Short Answer Responses (SIS-185373)

Previously, if an Essay/Short Answer question was set up so that students responded via a Plain Text editor, apostrophes displayed in HTML format. This has been corrected.

Path: Instruction > Curriculum > Curriculum List > open a quiz > Score

LTI 1.3 Support (SIS-186561) **[Enhancement]**

Campus now supports LTI connections that use the 1.3 version of the specification. To use 1.3, the vendor you're connecting to must also be certified in that version.

Path: Instruction > Settings > Digital Learning Applications Configuration

Curriculum Copier Visual Display (SIS-186738)

Previously, the version of the Curriculum Copier used to add curriculum to a section from the Curriculum Library was wrapping curriculum names without indenting the additional line(s). This has been corrected.

Path: Instruction > Curriculum > Curriculum Library > view curriculum > Add to Section

Reflections - Buttons (SIS-186758)

Previously, the Submit and Cancel buttons were sometimes duplicated at the top and bottom of the screen when viewing Reflections. This has been corrected.

Path: Instruction > Curriculum > Curriculum List > open an assignment > Reflections

Quiz Improvements (SIS-186882) **[Enhancement]**

The following improvements have been made to quizzes:

- When a teacher makes a change to a quiz that students have already viewed, they now have additional options to update scores for submitted quizzes, or to both update scores and reassign the quiz to students, if students should have the option to retake the quiz as a result of the change.
- When reassigning a quiz to a student via the scoring screen, teachers now have the option of selecting a new individualized End Date and Time for that student.
- Added an option in the assignment editor to Reassign the quiz to all students.
- Additional improvements to quiz accessibility.

Path: Instruction > Curriculum > Curriculum > open a quiz assignment > Quiz

Digital Learning Applications - Trusted Apps Management Suite (SIS-187361) **[Enhancement]**

The Digital Learning Applications Configuration tool has been updated to allow users to configure connections to the 1EdTech Trusted Apps Management Suite, also known as TAMS. TAMS uses an LTI connection and allows teachers, and parents and students if enabled, to launch into TAMS and view approved tools via the Learning Tools tool.

Additionally, a change has been made to the configuration screen of all LTI connections. Previously, LTI connections had the option to "Allow Campus Parent Portal Access." This option has been clarified to read "Include in Learning Tools List" and now includes options for both Campus Student and Campus Parent.

Path: Instruction > Settings > Digital Learning Applications Configuration; Instruction > Curriculum Planning > Learning Tools

Multiple Choice Questions - WYSIWYG Editor (SIS-187713) **[Enhancement]**

Multiple Choice questions have been updated to include an option to Show Rich Text Formatting. When this option is enabled, the text fields for entering possible answers become rich text editors where teachers can format the text and include images and links.

Path: Instruction > Curriculum > Curriculum > open a quiz assignment > Quiz

Campus Student/Parent

Campus Student/Campus Parent – Tool Menu Hidden Behind Notifications Bell Icon on Small Screens (SIS-182301)

The tool menu was hidden behind the notifications bell icon on smaller screens, causing users to assume the app was broken. This issue was corrected.

Path: N/A

Centralized Cloud Services

FOP Reports in Campus Now Generated via Centralized Service (SIS-184733) **[Enhancement]**

FOP reports (excluding those sent to the batch queue) within Campus have shifted from generating on the application server to using a centralized service. FOP reports include PDF, RFT, and DocX format types. Other format types, such as HTML, XML, and SSRS reports, are excluded from this change.

Starting with the Campus .2527 (June) release, FOP reports handled by the batch queue will be routed to the new central service. The service is only scoped to handle FOP reports; therefore, non-FOP reports will not be impacted by this release either.

You should not notice any discernable difference in performance, report look, or generation. Infinite Campus has active monitoring to ensure this service is performant and any issues that arise are quickly identified and resolved.

Path: N/A

Centralized Report Rendering Service (RRS) Updated to Support DRAFT Watermarks (SIS-187666)

The centralized report rendering service (RRS) has been updated to properly render and support FOP reports with DRAFT watermarks.

Path: N/A

Data Validations

Data Validation Rule Push Down (SIS-185371) **[Enhancement]**

Added a Data Validation Rule push down to support the Data Certification (https://kb.infinitecampus.com/help/data-certification) tool.

Path: Reporting > Data Validation > Validation Rules

DIS/SIF

Course, Section, Roster - State Edition DIS Object Trigger Updates (SIS-184183) **[Enhancement]**

The logic for syncing the following database objects between the district and state editions was updated to send data via a database event change, in addition to the existing syncing methods of forcing a manual sync or saving on the UI:

Roster Verification objects

- RosterVerificationRequest
- RosterVerificationSection
- RosterVerificationSectionStaff
- RosterVerificationSectionStudent

Roster Object

- Roster - events now send; previously they were not sent.

Other Object Updates

- Course and Section - these send separately for events but are sent as CourseSection in batch)
- SectionStudentDetailValue

See the Syncing Data Between District and State Edition (https://kb.infinitecampus.com/help/syncing-data-between-district-and-state-edition) article for additional information.

DIS Error Log Clean-Up (SIS-185077)

Issues with CensusContactSummary were corrected, reducing unnecessary error noise in the DIS Error Log (https://kb.infinitecampus.com/help/error-log).

Path: System Settings > Data Interchange Admin > DIS Error Log

State Edition DIS Object Trigger Updates (SIS-185227) **[Enhancement]**

The logic for syncing several database objects between the district and state editions was updated to send data via a database event change, in addition to the existing syncing methods of forcing a manual sync or saving on the UI. These objects include:

- ContactLog
- Evaluation
- HealthScreening
- Medicaid
- TeamMember
- Plan
- ProgressReport
- ImmCertificate

New Interface for Course Information, Course Master Information, Add Course, Add Course Master

(SIS-182432) **[Enhancement]**

The Course Information (https://kb.infinitecampus.com/help/course-information1), Add Course (https://kb.infinitecampus.com/help/add-course), Course Master Information (https://kb.infinitecampus.com/help/course-master-info), and Add Course Master (https://kb.infinitecampus.com/help/add-course-masters) tools have a new interface.

For the Course Information and Course Master Information tools, the available fields are now organized into the following "cards" that can be collapsed and expanded as needed.

- **General Course Information** includes basic identifying information like the Course Name and Number.
- **Scheduling** includes the fields used in other schedule-building tools - length of the course, the number of periods it meets in one day, etc.
- **Course Setup** includes fields that determine attendance is recorded in it and scores are posted to the transcript.
- **State Defined** lists all fields used for state reporting in your state.
- **District Defined** lists any field your district has chosen to collect data on.
- **Comments** provide any additional information about the course that your school or district wants known.

No new fields have been added and logic has not changed for any of the fields. HOWEVER, many fields have moved location. To locate them easily, expand all of the cards and use your browser's search functionality.

The Add Course and Add Course Master tools have the same cards as Course Information and Course Master Information. When a calendar is linked to a Course Master, the Add Course tool allows the addition of a course from the Course Master without having to navigate to the Course Master.
