Tool Search: Career Readiness Report

The Career Readiness Report lists all students who have a Career Readiness record in the district. It does not honor exclusions on calendars, grade levels, or enrollments. This tool is available in the Nevada District and State Editions.

Configure and generate a Career Readiness report for selected students and reporting periods.

Report logic

The report includes students who participated in the Career Readiness program during the academic year.

- Students must have a Primary (P), Partial (S), or Special Education (N) enrollment in the requested calendar(s) during the reporting year.
- Students must have a Career Readiness program record and be enrolled in one of the calendars selected in the report.
- A row of data reports per Student / per unique Career Readiness program record / per District.
- If a student is enrolled in multiple calendars, the last active Primary (P), Partial (S), or Special Education (N) is used to report data elements 1-11.

State Exclude rule(s):

- Do not honor exclusions on calendars, grade levels, or enrollments
  - 'No Show' enrollments are not included in the report.
