Tool Search: Career Readiness Report

The Career Readiness Report collects student data on those with a Career Readiness record tied to an approved Course State Code or a Career Readiness record with work hours attached. The report does not honor exclusions on calendars, grade levels, or enrollments. It reports students in the last active Primary (P), Partial (S), or Special Education (N) enrollment in the requested calendar(s) for the reporting year.

This tool is available in the Nevada District and State Editions.

NV Career Readiness Report

The Career Readiness Report collects data on students who have a Career Readiness record tied to an approved Course State Code or have a Career Readiness record with work hours attached. The report will not honor exclusion on calendars, grade levels or enrollments, and will report student in the last active Primary (P), Partial (S), or Special Education (N) enrollment in the requested calendar(s) for the reporting year.

There will be 1 record per student per Career Readiness record. If student has multiple qualifying Course State Codes on a single record, those will show in 1 text box (comma delimited). This report contains student identifying information.

The Validation report will show Errors for those students that have a Career Readiness program record with a status other than Pass, or have Career Readiness program record(s) with a status of Pass that sum to less than 300 hours completed. It will also show Warnings for those students that have a Career Readiness program record with no matching transcript record, or have a Career Readiness program record with a status of Pass and less than 1 hour completed.

Report Logic

The report includes students who participated in the Career Readiness program during the academic year.

- Students must have a Primary (P), Partial (S), or Special Education (N) enrollment in the requested calendar(s) during the reporting year.
- Students must have a Career Readiness program record and be enrolled in one of the calendars selected in the report.
- A row of data reports per Student / per unique Career Readiness program record / per District.
- If a student is enrolled in multiple calendars, the last active Primary (P), Partial (S), or Special Education (N) is used to report data elements 1-11.

State Exclude rule(s):

- Do not honor exclusions on calendars, grade levels, or enrollments

Validation Report

The validation report provides a list of errors and warnings that inform users if any portion of their data should be cleaned up before the final verification of the Work-Based Learning data. **This report is produced even if the Career Readiness report is chosen in the Extract Editor.**

1. Select *Validation Report* from the **Extract Type** dropdown field.
2. Choose the desired **Format**.
3. Select the **Grade(s)** to include or an **Ad hoc Filter**.
4. **Select Calendars** to include in the report results.
5. **Generate Extract** or **Submit to Batch**.

The output is sorted by District Name, School Name, Student Last Name, and Student First Name.

Errors: Identifies a record that is missing the required information. Records that pull as an error are not reported on the Career Readiness Report.

Warnings: Identifies a potentially problematic piece of data. Upon further examination, users

may determine that the data is, in fact, set up correctly. Records that are pulled as a warning appear in the Career Readiness Report.

Errors	
2	Students who have a Career Readiness record that does not have a Status of Pass (Status is In-Progress or Fail, or no value).
Warnings	
1	Students who have a Career Readiness record associated with an approved Course State Code, but do not have a transcript record for the course. If some courses have a transcript record and others do not, only the records without a match will appear on the validation report. The student will have 1 record with course name(s) and number(s) on 1 line, comma-delimited.
2	Students who have a Career Readiness record associated with an approved Course State Code, but the hours are less than 1, and Status = P.
