

PreID Extract (Current) (Ohio)

Last Modified on 09/19/2025 1:45 pm CDT

[Extract Editor](#) | [Report Population and Business Rules](#) | [Generate the Extract](#) | [Extract Layout](#)

Tool Search: PreID (Current)

For the Science and Social Studies Tests and the Alternate Assessment for Students with Significant Cognitive Disabilities (AASCD), districts must use this layout to prepare and submit their student Pre-ID information. This layout includes fields that designate the test(s) for which students are eligible and whether students taking Science and Social Studies Tests will test online or need Pre-ID labels to apply to paper booklets.

Note: When SPED third-party integration is set up, SPED data is pulled through API, not Infinite Campus. If incorrect data is extracted, the district must work in its third-party system to correct the data for extraction.

PreID Extract (Current) ☆

Reporting > OH State Reporting > PreID Extract (Current)

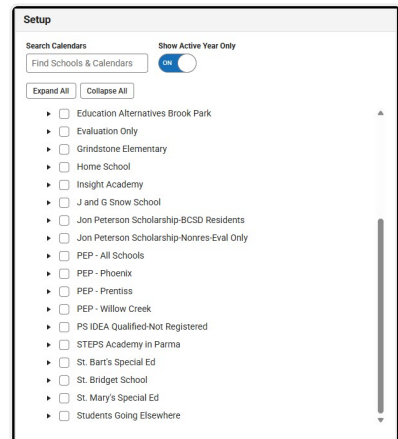

Instructions

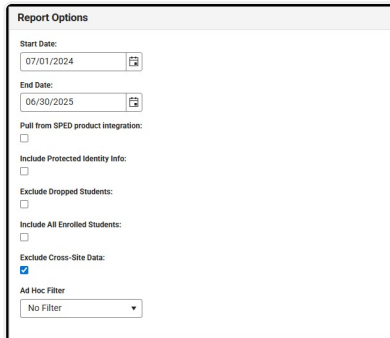

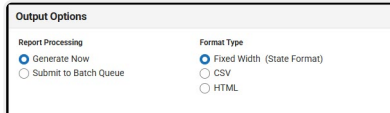

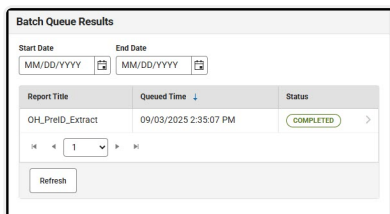

The Student Pre-Identification File outputs as a CSV (Comma Separated Value) or HTML file. The report contains student schedule information for generating AIR assessment labels relating to subjects ELA, Mathematics, Social Studies, and Science. Choose CSV to produce the file in the state defined format.

Enter a Date Range to pull students enrolled and scheduled in the desired year. The report can be run on a single calendar or district-wide.

PreID Extract (Current) Instructions

Extract Editor

Field	Description	Image <i>Click to enlarge</i>
Setup		
Calendar Selection	<p>Enter characters into the Search Calendars text box to narrow the list of calendars available for selection.</p> <p>The Show Active Year Only toggle can be used to filter calendars to only active or all calendars.</p> <p>Click the Expand All or Collapse All buttons to change the calendar view further.</p>	 <div>PreID Extract Setup</div>
Report Options		

Field	Description	Image <i>Click to enlarge</i>
Start Date	The first day on which the report returns data.	 <i>PreID Extract Report Options</i>
End Date	The last day on which the report returns data.	
Pull from SPED product integration	When marked, reports data from an integrated, third-party Special Education product. This defaults to unmarked. When no API is enabled, a warning displays.	
Include Protected Identity Info	When marked, reports the student's first and last name from their Protected Identities area.	
Exclude Dropped Students	When marked, students in sections that have a roster End Date are not included on the extract.	
Include All Enrolled Students	When marked, a record for each student with an Enrollment in the calendar(s) selected that has an Enrollment Start Date less than or equal to the Date Range End Date and a null End Date or an Enrollment End Date that is greater than or equal to the Date Range End Date reports.	
Exclude Cross-Site Data	When marked, the extract excludes cross-site enrolled student data.	
Ad hoc Filter	When selected, filters extract results based on a prior-created Ad hoc filter .	
Output Options		
Report Processing	<p>Select Generate Now to generate the extract immediately.</p> <p>Select Submit to Batch Queue to send the extract to the batch queue for processing.</p>	 <i>PreID Extract Output Options</i>
Format Type	<p>Select which format to generate the report:</p> <ul style="list-style-type: none">Fixed Width (State Format)CSVHTML	
Batch Queue Results		
Start Date, End Date	<p>The Batch Queue Results section displays a batch queue snippet for users to monitor the report generation status from the extract editor view.</p> <p>Enter a Start Date or End Date to filter the Batch Queue Results to a specific date range.</p>	 <i>PreID Extract Batch Queue Results</i>

Report Population and Business Rules

#	Requirement
R1	<p>For systems setup WITH third-party SPED integration:</p> <ol style="list-style-type: none"> 1. Make API call 2. Set parameters <ol style="list-style-type: none"> 1. When calendar is selected, the fiscal year associated with the calendar and the building number should be passed through API. 2. When reporting period is selected, the reporting period should be passed through API. 3. When start and/or end dates are entered, start and end dates should be passed through API. 4. When ad hoc filter is selected, the EMIS Student ID numbers should be passed in through the API filter. 3. Extract data. 4. One record is created for each record returned. 5. Records are matched with campus data on EMIS Student ID number. <p>For systems NOT setup with third-party SPED integration:</p> <ol style="list-style-type: none"> 1. Follow existing/Infinite Campus documentation: 2. Reports from most recent enrollment within the Date Range.R1.BR1
R1.BR1	When "Include All Enrolled Students" = checked on the extract editor, includes a record for each student with an enrollment in the calendar(s) selected that have a Start Date <= extract Date Range End Date and a null End Date or End Date >= the extract Date Range Start Date.
R1.BR2	Enrollment must have a Service Type = P or N.
R1.BR3	Enrollment should not be marked State Exclude or No Show.
R1.BR4	Do not include calendars or grade levels marked as Exclude.
R1.BR5	Student must be on the roster for at least one course/section found below that is found within the Date Range of the extract editor.
R1.BR6	Exception: If a student reports Test eligibility: AASCD = Y, do not require the student to be rostered in at least one course/section.
R1.BR7	Exception: If student has a Test eligibility & mode: OELPA = O or P, do not require the student to be rostered in at least one course/section.
R2	If Exclude Dropped Students = selected on the extract editor, do not include course/staff info for students that have a Roster End Date in the course/section.
R3	The report can be run against a district's active year as well as any prior year.
R4	The report can be run in District Editions.
R5	Report can be generated in CSV, HTML, and Fixed Width (state format)
R6	File Naming: OHPrelID_districtNumber_TodaysDate.csv

Generate the Extract

1. Select which **Calendar(s)** to include in the extract.
2. Enter a **Start Date** and/or **End Date**.
3. Mark the appropriate checkboxes below when applicable:
 - Pull from SPED product integration
 - Include Protected Identity Info

- Exclude Dropped Students
 - Include All Enrolled Students
 - Exclude Cross-Site Data
4. Select an **Ad hoc Filter** when applicable.
 5. Select when the report generates:
 - Generate Now
 - Submit to Batch Queue.
 6. Select the format in which to generate the extract:
 - Fixed Width (State Format)
 - CSV
 - HTML
 7. Click **Generate**.

Extract Layout

When the **Include Protected Identity Info** checkbox is marked in the extract editor, the Demographics fields report from Census > People > Identities > Active Identity > Protected Identity Information.
