

Tool Rights Catalog

Last Modified on 05/21/2025 3:51 pm CDT

The Tool Rights Catalog provides information on the tool rights available within Campus, organized by component. Campus Administrators at districts and schools can choose a specific tool to learn what rights can be assigned, need to be assigned, and should be assigned to their staff. Information on best practices is included, as well as other tools that need to be assigned for proper usage.

Let us know what you think! Submit feedback for the Tool Rights Catalog by posting in the [Tool Rights Catalog](#) forum.
