

Application Processing - Spring 2025

Last Modified on 04/08/2025 1:36 pm CDT

We're excited to unveil our reimagined **Application Processing** tool (formerly "Staff Processing"). Built directly from your feedback, this update delivers a more intuitive experience while significantly improving efficiency and smarter data management.

Key Improvements That Make Your Work Easier

- **Expanded Data Matching** – More data points for better census matches.
- **Streamlined Workflow** – Easily track which records have been reviewed.
- **Duplicate Records** – Allows reviewers to ignore duplicate parent/guardian entries.
- **Enhanced Record Review** – Reduces data duplication by requiring approval of new records.
- **Customizable Review Screen** – Displays key data relevant to internal processes.
- **Improved ADA Compliance** – Ensuring accessibility for all users.

Smooth Transition on Your Timeline

The new Application Processing tool will be deployed in a disabled state initially, giving your team complete control over when to activate it. This allows you to prepare your staff and roll out the changes at the perfect time for your district.

We Value Your Input

Your feedback shaped these improvements, and we want to hear how the new Application Processing tool works for you. Share your experience as you explore the updated features!
