

Assessment Center Tool Rights

Last Modified on 12/14/2025 8:45 pm CST

The **Assessment Center** allows schools to create and manage assessments, establish proficiency statuses, and import student test scores from external testing agencies.

See the [Assessment Center](#) article for additional information.

New Batch Queue Feedback

Assessment Center

Assessments can only be deleted when they have not been assigned to students.

Instead of deleting assessments, consider archiving those that are no longer needed. This saves historical data for those assessments and prevents future assignments of those assessments.
