

## Response to Intervention Administration Setup Tool Rights

Last Modified on 11/17/2025 2:38 pm CS7

**Response to Intervention (RTI) Administration** tools are used at the district level to set up how RTI tools behave for team members and students. This article includes the following tools:

- RTI Intervention Position Setup
- RTI Intervention Provider Setup
- RTI Intervention Setup
- RTI Plan Type Setup
- RTI Preferences
- RTI Template Bank Setup

### **RTI Intervention Position Setup**

The **RTI Intervention Positions Setup Tool** defines the name of the Intervention Provider on student RTI Plan. This tool is not available in all states.

See the RTI Intervention Position Setup article for additional information.

#### **Best Practice**

RTI Intervention Positions are associated with a provider and assigned to a student's RTI plan. Deleting interventions positions will lead to a loss of data. Instead of deleting positions that are no longer needed, mark the position as not Active (remove the active checkbox). This

retains historical information and prevents users from assigning the position in the future.

## **Available RTI Intervention Position Tool Rights**

R	W	A	D
<ul> <li>Access and view the RTI Intervention Position Setup tool.</li> <li>Select existing Positions from the Position Editor to view the Position Detail.</li> </ul>	<ul> <li>Modify and save existing RTI Intervention Position Setup positions.</li> <li>Change an existing position from active to inactive and vice versa.</li> </ul>	Add and save new RTI Intervention Positions.	<ul> <li>Permanently delete RTI Intervention Positions. This is not recommended.</li> </ul>

## **RTI Intervention Provider Setup**

Intervention Providers are staff members authorized to provide the intervention to the student. Only people defined as intervention providers within this tool are available for being assigned an intervention provider on a student's RTI plan.

See the <u>RTI Intervention Provider Setup</u> article for additional information.

Intervention Providers cannot be deleted when they are included in a student's RTI Plan. Instead of deleting the providers that are no longer needed, remove the Active checkbox from their Provider Detail. This retains historical information and prevents users from assigning the Provider in the future.

# **Available RTI Intervention Provider Tool Rights**

<ul> <li>Access and view the RTI Intervention Provider Setup tool.</li> <li>Select and view existing Intervention Providers.</li> </ul>	<ul> <li>Modify and save existing Intervention Providers.</li> </ul>	<ul> <li>Add and save new Intervention Providers.</li> </ul>	<ul> <li>Permanently delete an Intervention Provider. This is not recommended.</li> </ul>

### **RTI Intervention Setup**

Interventions are set up to provide teachers and staff a set of predefined interventions they can select and use when setting up an RTI plan for a student.

See the <u>RTI Intervention Setup</u> article for additional information.

Interventions cannot be deleted when they are assigned in a student's RTI plan. Instead of deleting interventions, remove the Active checkbox from the Intervention Detail. This retains historical information and prevents users from assigning that intervention in the future.

## **Available RTI Intervention Tool Rights**

<ul> <li>Access and view the list of the RTI Intervention Setup tool.</li> <li>Select and view details of an Intervention.</li> </ul>	<ul> <li>Modify and save existing Interventions.</li> </ul>	<ul> <li>Add and save new Interventions.</li> </ul>	<ul> <li>Permanently delete an Intervention.</li> <li>This is not recommended.</li> </ul>

## **RTI Plan Type Setup**

RTI Plan Types must be established before teachers and staff can create RTI student plans. Plan Types are set up as templates for the content area, intervention tier, and plan editors, which are available when selected and used for a student's RTI plan.

See the RTI Plan Type Setup article for additional information.

RTI Plan Type Setup

RTI Plan Types cannot be deleted when they are assigned to a student's RTI plan. Instead of deleting plan types, remove the Active checkbox from the Plan Type Detail. This retains historical information and prevents users from assigning that plan type in the future.

# **Available RTI Plan Type Setup Tool Rights**

<ul> <li>Access and view the list of the RTI Plan Type Setup tool</li> <li>Select and view details of an RTI Plan.</li> </ul>	<ul> <li>Modify and save existing RTI Plan Types.</li> </ul>	<ul> <li>Add and save new RTI Plan Types.</li> </ul>	<ul> <li>Permanently delete an RTI Plan Type. This is not recommended.</li> </ul>

#### **RTI Preferences**

The RTI Preferences tool allows users to determine how the RTI module functions.

See the <u>RTI Preferences</u> article for additional information.

## **Available RTI Preferences Tool Rights**

<ul> <li>Access and view the RTI Preferences.</li> </ul>	<ul> <li>Modify RTI Preferences.</li> </ul>	• N/A	• N/A

#### **RTI Template Bank Setup**

Template Banks allow you to create canned comments and location values which staff members can select when filling out an RTI plan.

See the RTI Template Bank Setup article for additional information.

RTI Template Banks cannot be deleted when they are assigned to a student's RTI plan. Instead of deleting template banks, remove the Active checkbox from the Bank Field Editor. This retains historical information and prevents users from assigning that template bank in the future.

# **Available RTI Template Bank Tool Rights**
