Technical Information

See the Technical Information - Release Pack Campus.2519 (https://kb.infinitecampus.com/help/technical-information-release-pack-campus2519) article for a list of schema changes in this release.

Academic Planning

Academic Planning Batch Program Assignment Update (SIS-187166)

An issue causing the assignment of inactive programs when using the Batch Program Assignment Wizard has been resolved.

Path: Student Information > Program Administration > Batch Program Assignment Wizard

Academic Planning Accessibility Updates (SIS-188272) **[Enhancement]**

Accessibility improvements have been made to Academic Planning.

Path: Academic Planning

Activity Registration

Activity Registration Document Upload (SIS-183950) **[Enhancement]**

The Activity Registration Document Upload (https://kb.infinitecampus.com/help/accept-or-decline-a-document-upload) feature allows students and parents to upload a specified number of documents when registering for an activity. Uploaded documents are displayed within the Activity Roster and posted to a designated location within Infinite Campus after approval by Activity Staff.

Path: Student Information > Activity Registration > Activity Monitor

Activity Registration Future Enrollment Fix (SIS-186756)

Fixed an issue where the "Preview Future Enrollments" functionality did not display all students who were capable of registering for activities. The "Include Future Enrollments" logic has been modified to better determine student eligibility. Districts that are using "Include Future Enrollments" are encouraged to review their "Preview Future Enrollments" results on the step 2 Preview and modify their ad hoc as needed.

Path: Student Information > Activity Registration > Activity Monitor

Activity Registration & School Store Maintenance (SIS-187855)

The following updates have been made to the Activity Registration (https://kb.infinitecampus.com/help/student-information-activity-registration) and School Store (https://kb.infinitecampus.com/help/e9c743d) tools:

- Fixed an issue where the Required label would disappear from the Registration Close Date field after an activity opened for registration, despite the field remaining mandatory.
- Fixed an issue where two alerts would appear in View Receipt of a student who had made a CC payment and was removed from activity.
- Fixed an issue where adding a new payment method and setting it as default did not immediately display it as the default.
- Fixed an issue where users were unable to proceed past step 1 when copying an activity in the Activity Dashboard that originally had waitlist enabled.

Path: N/A

Activity Registration Payment Export Issue (SIS-187910)

Fixed an issue where the Activity Roster (https://kb.infinitecampus.com/help/activity-monitor) Payment Export was not functioning.

Path: Student Information > Activity Registration > Activity Monitor

Activity Roster Student Removal (SIS-187952)

Fixed an issue where users with 'Write' tool rights for Activity Monitor (https://kb.infinitecampus.com/help/activity-monitor) could not remove students from activity rosters.

Path: Student Information > Activity Registration > Activity Monitor

Assessment

Student Identifier Strip Leading Zeros Update (SIS-178736)

In Steps 3 and 4 of the Assessment Center (https://kb.infinitecampus.com/help/assessment-score-data-import#assessment-data-mapping-and-importing), leading zeros were displayed for the selected Student Identifier despite the 'Strip Leading Zeros' checkbox being marked. This caused matching errors when importing data that should not have leading zeros. This issue was corrected. When 'Strip Leading Zeros' is chosen for the Student Identifier field, the data in the mapping no longer displays nor imports leading zeros. The imported data matches the Student Identifier in the system.

Path: Student Information > Assessment Administration > Assessment Center

Duplicate Assessments in Records Transfers (SIS-183217)

Validations for importing assessment data (https://kb.infinitecampus.com/help/assessment-student) during records transfers (https://kb.infinitecampus.com/help/records-transfer-student) were updated to prevent duplicates. Users now receive a warning for the following scenarios:

- Assessments have already been imported for the CURRENT record transfer.
- Assessments exist in the database for the same test, person, and date.
- User successfully transfers a record with an assessment record that is not in the database.

Student Information > General > Assessments, Records Transfer

Information Icons Removed (SIS-185190)

The blue information icons in the data mapping column headers affected table scrolling and data mapping/importing (https://kb.infinitecampus.com/help/assessment-score-data-import#assessment-data-mapping-and-importing) functions. To enhance user experience, the information icons were removed.

Path: Student Information > Assessment Administration > Assessment Center

Child Test Date Options Restored (SIS-187715)

There was an issue where child test date columns would lose their options button when remapping a column (https://kb.infinitecampus.com/help/assessment-score-data-import) after the "Apply to All Test Date Fields" checkbox was unchecked on the parent test date. All tests under the assessment hierarchy (child, grandchild, etc.) now retain their options button as expected.

Path: Student Information > Assessment Administration > Assessment Center

Child Test Import Update (SIS-187818)

The Assessment Center (https://kb.infinitecampus.com/help/assessment-score-data-import#assessment-data-mapping-and-importing) data import logic for child tests was updated to prevent:

- import if the parent test fails.
- save without a valid 'ParentID'.

An error message is generated to notify users that the Parent test creation failed.

Path: Student Information > Assessment Administration > Assessment Center

Warning Message Added (SIS-188113) **[Enhancement]**

Validation for Assessment Center (https://kb.infinitecampus.com/help/assessment-score-data-import#assessment-data-mapping-and-importing) file imports was improved. 'WARNING 1016' displays when a database column attribute is present in the imported file but not in the Core Attribute/Dictionary.

Path: Student Information > Assessment Administration > Assessment Center

Campus Analytics Suite

Campus Analytics Daily Attendance Report Update (SIS-167195)

An issue preventing users from sharing the Daily Attendance Report has been corrected.

Path: Reporting > Ad Hoc Reporting > Daily Attendance Report

Campus Analytics Early Warning Update (SIS-188151)

The overnight process for generating Early Warning GRAD scores now includes historical data for the past five school years. Previously, scores were only generated for students with active enrollments, which prevented historical data from being included in the sync.

Path: Student Information > Counseling > Early Warning

Campus Instruction

Scoring Accessibility (SIS-185275)

Updates have been made to improve the accessibility of scoring screens in Instruction, including keyboard navigation and screen reader behavior.

Path: scoring screens such as Instruction > Curriculum > open assignment > Score

Campus Learning

Scoring Submissions (SIS-187140)

Previously, student submissions didn't display in the scoring screen until the user clicked Save. This has been corrected.

Path: Instruction > Curriculum > Curriculum List > open an assignment > Score

Lockdown Browser - Chromebook (SIS-187710) **[Enhancement]**

The Campus integration with Lockdown Browser has been updated to support Chromebooks.

Path: To Configure - Instruction > Settings > Digital Learning Applications Configuration

OneDrive - File Attachment (SIS-188136) **[Enhancement]**

OneDrive has been added to the list of available LTI connections. This type of connection supports attaching files from OneDrive to assignments in Campus.

Path: Instruction > Curriculum > Curriculum List > New > Attach Content

Assignment Flags Preventing Student Submissions (SIS-188382)

Previously, assignment flags prevented students from submitting their work for assignments with Submissions enabled. When any flag (Turned In, Missing, or Incomplete) was attached to a student's assignment, the submission option was unavailable regardless of the assignment's start and end dates.

Logic has been updated so that students can submit assignments within the start and end dates, even if a Missing or Incomplete flag is present. Marking the Turned In flag still closes the assignment from having submissions submitted.

Path: Instruction > Students > Grade Book

Curriculum Library - Cartridge Import Error Message Update (SIS-188429) **[Enhancement]**

The error message displayed when a file size limit is exceeded during curriculum import has been improved. If the file(s) attached to items in the imported curriculum exceed the file size limit of the Campus Digital Repository, the following message displays: "This resource could not be imported. The file exceeds the storage limits for the Campus Digital Repository." and files are listed.

Path: Instruction > Curriculum Planning > Curriculum Import

Curriculum Details - Description (SIS-188432)

Previously, the Description field in the Details tab of Curriculum displayed HTML tags instead of images and formatting. This has been corrected.

Path: Instruction > Curriculum > Curriculum List > open an Assignment > Details

Campus Student & Parent

Portal Usage Report (SIS-178948)

The Portal Usage Report has been updated to improve performance.

Path: System Settings > Portal Preferences > Portal Usage Report

Campus Student & Parent - Assignments Tool Performance (SIS-188153)

The Assignments tool in Campus Student and Campus Parent has been updated to improve performance when navigating to and from the tool.

Path: Campus Student or Campus Parent > Assignments

Census

Legal Designee Checkbox Added (SIS-187064)

A 'Legal Designee' checkbox was added to the Relationships (https://kb.infinitecampus.com/help/relationships) tool. It allows users to indicate if the contact is a legal designee for the student. The checkbox defaults to unmarked.

Path: Census > People > Relationships

Centralized Cloud Services

Centralized FOP Failing to Initialize and Provide Monitoring Data (SIS-188223)

Centralized report rendering failed to initialize and report valuable monitoring and performance data due to an issue with the RSSResourceNameResolver. This issue was resolved, and because of the fail-safes implemented, the customer experience was not impacted.

Path: N/A

Custom Forms

Custom Forms Versioning Enhancement (SIS-185327) **[Enhancement]**

Interactive Custom Forms with Database Tables can now be versioned to preserve the configuration from a previous version. This allows users to correct typos, update verbiage due to state or district changes, or have a new form for the next school and keep a view of how the form changed over time. A new version of a database table form allows users to use the same database table for reporting and keeping the data together. See the Custom Forms Setup (https://kb.infinitecampus.com/help/custom-forms-setup) article for additional information.

Path: Student Information > General Student Administration > Custom Form Setup

DIS/SIF

SIF Unity (SIS-183814)

The SIF Unity (https://kb.infinitecampus.com/help/sif-unity-objects) architecture and UI framework to support the SIF 3.6 Full Profile has been released. Currently, the SIF Unity tools are only available in Virginia (https://kb.infinitecampus.com/help/sif-virginia).

Path: System Settings > SIF Unity

Ed-Fi

Ed-Fi Event Queue Error Fix (SIS-187562)

An error causing records to get stuck in the Ed-Fi Event Queue during resyncs by Course ID has been fixed.

Path: Reporting > Ed-Fi

Enrollment

Warning Message Update for Enrollment Overlap Preference (SIS-180040)

The warning message that displays when a school has the System Preference (https://kb.infinitecampus.com/help/system-preferences1) for Enrollment Overlap set to auto-end the enrollment and warn the user has been updated. It now reads 'The existing enrollment will be ended with the same start date and set to 'No Show.''

Path: Student Information > General > Enrollments; System Settings > System Preferences

Enrollment Update (SIS-185089)

The Copies Forward checkbox has been restored on the custom Enrollment fields.

Path: System Settings > Custom Data and Links > Custom Attribute/Dictionary

Fees

Fees Accessibility Enhancement (SIS-187800)

Improve Fees (https://kb.infinitecampus.com/help/fees-person) accessibility in Campus Parent.

Path: Campus Parent > Fees

Forms

Form Batch Setup Fix (SIS-187990)

An issue was fixed where form batches (https://kb.infinitecampus.com/help/form-batch) created using the Term Section Batch option did not open the detail view of the form for a student.

Path: Student Information > General Student Administration > Form Batch Setup

FRAM

FRAM Income Guide 25-26 School Year (SIS-177252)

The FRAM income guide (https://kb.infinitecampus.com/help/income-eligibility-guidelines) has been updated based on USDA guidance.

Path: FRAM > Setup > Income Eligibility Guidelines

Eligibility Import Wizard Interface Enhancement (SIS-183724) **[Enhancement]**

The Eligibility Import Wizard tool has received a new user interface.

Path: FRAM > Tools > Eligibility Import Wizard

Eligibility End Date Wizard Interface Enhancement (SIS-185572) **[Enhancement]**

The Eligibility End Date Wizard (https://kb.infinitecampus.com/help/eligibility-end-date-wizard) tool has received a new user interface.

Path: FRAM > Tools > Eligibility End Date Wizard

Grading Setup

Tool Rights to Standards Bank (SIS-186666)

Previously, users who had read-only rights to the Standards Bank still had the option to convert a group to a standard. Logic has been corrected so that Write rights are required to perform this action.

Path: Grading & Standards > Standards Setup > Standards Bank

Additional Standards Import Improvements (SIS-188054) **[Enhancement]**

The following improvements have been made to the Standards Import:

- Simplified the process for importing a single framework.
- Added the Abbreviation to the preview.
- Additional cosmetic improvements.

Path: Grading & Standards > Standards Setup > Standards Bank > Import

Infrastructure

Custom Outline Links Set to Open in Workspace Not Updating Title Bar (SIS-170302)

When certain types of custom tools were loaded in the New Look, the tool name displayed in the title bar did not update to match the tool that was loaded. This issue was corrected.

Path: N/A

Buttons on Custom ICML Pages of CampusTool Not Working in New Look of Campus (SIS-177790)

Buttons on ICML pages of CampusTool type ‘Tool’ were not working because a nodeID parameter was not being added to the URL in the New Look of Campus. This issue was corrected.

Path: N/A

Custom Tools Not Appearing in Recent Tools Tab (SIS-183520)

Custom tools were failing to appear in the Recent Tools list. This issue was corrected.

Path: Recent Tools

Information Card Duplicate Guardian Display Issue (SIS-186718)

A student's information card incorrectly displayed duplicate guardians when a guardian had multiple user accounts. This issue was corrected.

Path: Census > People > Demographics

Standardized Person and Student Title Bars (SIS-187164)

Resolved an inconsistency in the display of person and student information across different tools. The title bar now shows the same data consistently for all person and student records, regardless of the tool used.

Path: N/A

Droplist Values Showing on Action Bar (SIS-187911)

When the action bar covered up a droplist, text for the value selected in the droplist was incorrectly showing on top of the action bar. This issue was corrected.

The action bar is where all main tool and page functions are located. It is located at the bottom of the screen, which allows screen content to be presented to the user first, with the actions the user

is able to take at the bottom. The Action Bar is affixed to the base of the browser so the functions are always visible to the user, even on a mobile device.

Path: N/A

Locator

Unable to Navigate to Student Search in New Look of Campus (SIS-184263)

Users without tool rights to Census > Enrollments could not search for students using the Student Locator Wizard (https://kb.infinitecampus.com/help/student-locator) in the New Look of Campus. This issue was corrected. When users search for and select a student, the system takes them directly to their summary page.

Path: Student Information > General > Student Locator Wizard

Messenger

Sent Message Log Fix (SIS-184177)

Fixed an issue where some messages were not displaying in the Sent Message Log (https://kb.infinitecampus.com/help/sent-message-log).

Path: Communication > Messenger > Sent Message Log

Messenger Engine Optimization (SIS-187941) **[Enhancement]**

Improved performance of large campaigns by optimizing queries within the Messenger Engine.

Path: Communication > Messenger > Messenger 2.0

Navigation

Student Team and Information Card Updates (SIS-182686)

The following updates were made:

- Student team information no longer displays in the title bar. This information will remain in the Information Card
- Hover text was removed from the Information Card
- Hover text was removed from the Favorites Star

Path: Student Information > General > Summary

OneRoster

OneRoster - School Scoping List (SIS-186615) **[Enhancement]**

The list of Schools available when scoping a OneRoster connection has been updated to include any Calendars that are active at any point during the active School Year.

Path: Instruction > Settings > Digital Learning Applications Configuration > open a OneRoster connection > Edit > Enable Schools

Online Payments

Change Household Payments to Toggle (SIS-140533) **[Enhancement]**

Household Payments (https://kb.infinitecampus.com/help/payments-households) has been updated to use toggles instead of checkboxes to enable Online Payments. This change applies to each household member.

Path: Census > Households > Household Payments

School Store Accessibility (SIS-187359)

Improved School Store (https://kb.infinitecampus.com/help/school-store) accessibility.

Path: Campus Parent > School Store

Program Participation

Federal/State Angular Programs – Modifications to Filtering Records on the List View Screen (SIS-187033) **[Enhancement]**

Filtering options have been updated for the following Programs: Pregnant & Parenting, Career and Technical Education, Career Readiness, Extended Learning Opportunities, At Risk, Alt Program,Dropout, Dual Language Immersion, District Residency, Support Environment, On Track, Funded Program, and Preschool.

Filters have been added for Start Date and End Date. The School Year filter has been removed. Users must select the Apply button to filter by data entered in any of the filters.

New filtering options have been added to improve the functionality of the FERPA program list view screen.

Users may select filter options, then Apply to limit the records being displayed:

- Start Date (new option)
- End Date (new option)
- School Year (modified to match school year entered in program record)

Path: Student Information > Program Participation > FERPA

EL Service Types "Publish to Districts" Button Not Functioning in New Look (SIS-187351)

A bug that was preventing State Edition users from publishing EL Service Type Changes to District Editions in the New Look has been fixed.

Path: Student Information > Program Administration > English Learners (EL) Service Type Setup

Programs/Flags

Student Flags - Tool Rights, Subrights Modification (SIS-185372)

Users assigned Read and Write Tool Rights to Student Flags and the State Reporting subright for Student Flags could not edit a flag marked as State Reporting when it was also marked at Special Education.

Previously, tool rights were validated for subright precedence with Add rights. This has been updated to validate the subrights for Write rights instead.

As a general rule, the Special Education subright overrules the State Reporting subright, which means a user with only the State Reporting subright cannot modify a flag marked for both State Reporting and Special Education.

In summary:

- A user with RW rights to flags can edit existing flags.
- A user with RW rights to flags PLUS RW rights to the State Reporting subright can edit flags marked as State Reporting.
- A user with RW rights to flags PLUS RW rights to the State Reporting subright CANNOT edit flags marked as Special Ed and State Reporting. This requires the Special Ed subright to be assigned.

Requests & Rosters - Roster Builder Student Name Search Field (SIS-185543)

The Student Name Search field in the Requests & Rosters (https://kb.infinitecampus.com/help/requests-and-rosters) tool was reported to be slow in returning the list of student names or searched names and was more noticeable when there were more than 2000 or so students in the calendar. This has been corrected.

Walk-In Scheduler - Loading Courses from List of Requests Schedules Over Cross-Site Courses (SIS-187724)

When loading courses in the Walk-In Scheduler (https://kb.infinitecampus.com/help/walk-in-scheduler), that process placed a course in the same period as an already scheduled Cross-Site Course. This has

been corrected. Using the Load option on the Walk-In Scheduler will not add a course to a period when a Cross-Site Course already exists.

As an order of operations when scheduling courses for the next year, the recommended and best practice is to schedule cross-site courses after all other scheduling has been completed. This is stated in the following articles:

- Getting Started with Cross-Site Enrollment
- Cross-Site Enrollment Configuration
- Walk-In Scheduler Information for Cross-Site Enrollment
- Walk-In Scheduler
- Checklist for Scheduling

- Logic for reporting a single EL Program record has been updated to report a record for each enrollment within the reporting start and end date based on the overlapping Identified Date and Exit Date. When there are multiple enrollments in the school year and the student ended and restarted enrollment, one record per enrollment for the EL 02 program that falls within each enrollment start and end dates reports.
- Logic for the ADM Enrollment Date field has been updated to report the most recent Start Date of either the enrollment or the EL Identified Start Date, whichever is most recent.
- Logic for the ADM End Date field has been updated to report the EL Program Exit Date when the EL Program Exit Date is earlier than the enrollment end date.

South Dakota Special Ed IEP Updates (SIS-186411)

Several updates were made to the South Dakota Individual Education PlanIndividual Education Plan (https://kb.infinitecampus.com/help/individual-education-plan-south-dakota), including:

- A new print format is now available, SD IEP 2025 and SD IEP with Transition 2025.

- Several text fields on the Present Levels of Performance, Consideration of Special Factors, Least Restrictive Environment, and Prior Written Notice editors were updated to be WYSIWYG text fields.
- The Prior Written Notice editor is now a list editor to accommodate multiple PWN records.
- The logic for pulling the "The student will turn 17 on..." field on the Transition Course of Study editor was updated to pull the student's Date of Birth from the Student Information editor.
- Several new editors were added: "Instructional Only Accommodations/Modifications," "Testing and Instructional Accommodations and Modifications," and "ESY Services."
- The State and District-Wide Assessments editor was heavily updated.
- The Remove ESY Service checkbox and Remove Based On text field were removed from the Special Education Services editor. The logic for the Specify Other field on this editor was also updated.
- A print issue was fixed where the order of classes displayed out of order. Editors marked as Not Needed do not print.

South Dakota - OLR Posting and FERPA Error (SIS-187392)

Districts could not use OLR Auto-posting or Batch Posting when details specific to FERPA (https://kb.infinitecampus.com/help/ferpa-south-dakota) were posted using the Federal/State Programs Update (FSPU) Wizard (https://kb.infinitecampus.com/help/statefederal-program-update-wizard) due to the logic looking for a district ID.

This has been corrected for South Dakota District Edition users. The FSPU no longer requires a district ID value and auto-posting and batch posting from OLR can be used.
