Tool Search: MOSIS Extracts

The Summer EBT extract generates a report of students and their Free and Reduced-Priced eligibility for Missouri's summer food program.

See the MOSIS Extracts article for additional information.

Report Logic

One record reports per student enrolled in the calendar(s) selected. This includes all students enrolled at any point during the school year.

Data reports from the most recent primary enrollment when no active enrollment record exists for the student. When a student has multiple primary enrollments, the latest start date is used for reporting. When the start dates are the same, the highest EnrollmentID reports.

When the student has no primary enrollment, then the partial enrollment and SPED enrollment reports.

Students do not report when:

- The student and/or calendar is marked as State Exclude.
- The student is marked as No Show.
- The student does not have an active primary enrollment.
- The student is enrolled in a CEP school.
- The student has a Local End Status of T005, T006, T007, T008, and T009.

The report can be run against a district’s active year.

Only qualified students who are either of the following at any point during the year report:

- FRAM Eligibility of Free or Reduced OR
- Certified Type of Homeless, Migrant, Runaway, Forst Care, SNAL, or TANF.

Students report when their FRAM Eligibility is Paid and when they are either Homeless, Migrant, or Runaway.

The student's primary household reports.
