Academic Planning

Academic and Graduation Programs – New Interface (SIS-182867) **[Enhancement]**

The Academic Programs and Graduation Programs tools have been combined into a new interface called Academic and Graduation Programs. These programs can be created and managed within this single tool.

Path: Student Information > Program Administration > Academic and Graduation Programs

Accessibility

Accessibility Improvements (SIS-187475) **[Enhancement]**

Various accessibility improvements have been made to the following tools:

- Scoring and individualizing assignments
- Curriculum Library
- Progress Monitor
- Campus Learning Usage
- Digital Learning Applications Configuration
- Google Drive Configuration
- Engagement Check-In
- School Standard Setup
- Standards Alignment Wizard
- Standards Replacement Wizard
- Standards Bank
- Portal Preferences
- Campus Student and Campus Parent

Path: Various

Activity Registration

Activity Registration Form Preview Navigation Issue (SIS-187852)

Resolved an issue where parents were unable to navigate back from previewing required forms during Activity Registration on the Campus Parent (https://kb.infinitecampus.com/help/campus-parent-portal) app.

Path: Campus Parent > Activity Registration

Activity Registration & School Store Maintenance (SIS-188578)

The following updates have been made to the Activity Registration (https://kb.infinitecampus.com/help/activity-dashboard) and School Store (https://kb.infinitecampus.com/help/school-store) tools:

- Resolved an issue where the Save button in Step 1 did not function when the Waitlist Close Date was set before the current date.
- Fixed various bugs related to Document Upload.
- Resolved an issue where the inventory of Public Store items was not being tracked properly after changing quantity in Checkout.

Path: N/A

Ad hoc Reporting

School Boundaries Report in AdHoc (SIS-125316)

Fixed an issue where reporting on School Boundaries in Ad hoc only displayed students enrolled in the boundary school. It now correctly includes all students within the defined school boundaries,

regardless of their enrollment status.

Path: Ad hoc Reporting > Filter Designer

Assessments

Alphabetized Districts in Publishing List (SIS-174356) **[Enhancement]**

The order of districts in the publishing list of the Assessment Center (https://kb.infinitecampus.com/help/publish-tests-assessment-center) was updated to display in alphabetical order.

Path: Student Information > Assessment Administration > Assessment Center > Publish

Special Characters Prevent Child Tests From Importing (SIS-181579)

Child assessments did not load when the 'Save & Test' option under Step 4 in the Assessment Center (https://kb.infinitecampus.com/help/assessment-score-data-import) was selected if the assessment name included certain keywords and special characters. This issue was resolved, and the assessments load as expected.

Path: Student Information > Assessment Administration > Assessment Center

Tests with Multiple Levels Not Importing (SIS-184670)

There was an issue with data not saving to the database when users imported an assessment (https://kb.infinitecampus.com/help/assessment-score-data-import) with more than two hierarchical levels. This issue was resolved. Users can import and view up to 4 hierarchical levels of an assessment. All levels/related data persist in the database and are retrievable and viewable in the UI.

Path: Student Information > Assessment Administration > Assessment Center

Error Message When Importing Result Codes With Special Characters (SIS-186541)

When a user tries to test/import (https://kb.infinitecampus.com/help/assessment-score-data-import) a string or special character into ‘result’ or ‘resultLevel’ with the action 'Calculate using grading scale', the following error message now displays:

- Cannot calculate value '{cellValue}’ using Grading Scale for db field '{dbField}'. The value must be numeric.

Path: Student Information > Assessment Administration > Assessment Center

Child Scores Not Published (SIS-188831)

Child assessment scores did not import when publishing tests from the State to District level. The Assessment Center (https://kb.infinitecampus.com/help/publish-tests-assessment-center) publishing logic was updated to check the published flag only on the root test, allowing scores to import correctly.

Path: Student Information > Assessment Administration > Assessment Center > Publish

Publishing Flags Verification (SIS-189080) **[Enhancement]**

Publishing flag validations for test structures in the Assessment Center (https://kb.infinitecampus.com/help/publish-tests-assessment-center) were improved to ensure users are properly notified when republishing is necessary after a test structure changes. Publishing flags reset to 0 when:

- A test is copied in the State Edition.
- A new child test is added to the assessment.
- A child test is moved to the assessment using the "Add Existing" button.
- Any update is made on the Test Detail screen.

Path: Student Information > Assessment Administration > Assessment Center

Assessment Score Import Updated (SIS-189132)

When importing test scores (https://kb.infinitecampus.com/help/assessment-score-data-import), if a score field column mapped to calculate or import has a blank cell, the row no longer fails. The score field is saved as null or its default database value. All other mapped score fields with valid, populated values are imported or calculated as expected.

Path: Student Information > Assessment Administration > Assessment Center

Campus Digital Repository

CDR On-Premise Deprecation Warning Prematurely Cleared (SIS-188576)

Starting with Campus.2443, we introduced a bi-weekly alert reminding districts to migrate from the CDR on-premise repository to our off-premise solution. Due to a bug, this alert was cleared prematurely. This issue was corrected. The alert now refreshes daily until districts initiate the CDR off-premise migration.

NOTE: If your district sees this alert, navigate to the Digital Repository Preferences tool and select the Change CDR Hosting button as soon as possible.

Path: System Settings > Digital Repository > Digital Repository Preferences

Campus Instruction

Additional Logging Added to Find Root Cause of Sporadic Grade Book Error Message (SIS-187297)

Additional logging has been added to assist in finding the root cause of sporadic and difficult-to-replicate error messages some users encounter when saving assignment scores or grades in the grade book.

Path: Instruction > Grade Book

Curriculum List - Visual Improvements (SIS-187378) **[Enhancement]**

Improvements have been made to the Curriculum List to make navigation options more clear, especially when accessing the List from the Teaching Center. The three numbers that display for curriculum items have been redesigned to display as buttons. Teachers can easily score an assignment from the Teaching Center by clicking the assignment icon to open the List and then clicking the Scored button to open the scoring screen. From there, click Close to return to the Curriculum List.

Path: Instruction > General > Teaching Center

Campus Learning

Images - Acceptable Use Policy (SIS-186619)

Logic has been updated so that when a user uploads an image in a WYSIWYG editor, the District Acceptable Use Policy displays alongside the Campus Terms of Service.

Path: Instruction > Curriculum > Curriculum

Saving Quiz Scores (SIS-187438)

Previously, if a teacher entered a score for a quiz that differed from the calculated score, the new score sometimes didn't save properly. This has been corrected.

Path: Instruction > Grades > Grade Book

Reassigning Quizzes - Multiple Choice Questions (SIS-188036)

Previously, if a teacher reassigned a quiz that included a multiple choice question with multiple correct answers, correct answers were being marked as incorrect. This has been corrected.

Path: Instruction > Grades > Grade Book

Curriculum Import Update (SIS-188168)

The Curriculum Import has been updated to handle content with large file attachments more

efficiently.

Path: Instruction > Curriculum Planning > Import Curriculum

Curriculum Import - LTI Links (SIS-189143) **[Enhancement]**

An additional option has been added to the Curriculum Import to facilitate importing curriculum even if no LTI connections have been configured. If the curriculum cartridge being imported includes LTI links, users have two options:

- Set Up a Single Learning Partner for All Links
- Skip Setup and Remove Links

The first option requries that the relevant LTI program to have an existing connections in the Digital Learning Applications Configuration tool to be selected in the import.

If the user does not have the Enhanced Curriculum tool right, or rights to Digital Learning Applications Configuration or District Import, the import automatically applies the Skip Setup and Remove Links option.

Path: Instruction > Instruction Curriculum Planning > Import Curriculum

DIS/SIF

SIF Unity Updates (SIS-189144)

The following SIF Unity updates have been made:

- The Remove button in the Certificate (https://kb.infinitecampus.com/help/sif-unity-certificates)s side panel has been disabled for users without Delete rights.
- Validations have been added to the Required fields in the Delete tool.
- Triggers for the Responsible School and Serving School elements in the Student School Enrollment object (https://kb.infinitecampus.com/help/sif-virginia) have been updated for Virginia.
- The SIF Person Data - Object Viewer 2.* (https://kb.infinitecampus.com/help/sif-person-data) has been updated to include the StudentSchoolEnrollment object in Virginia.
- The state reports in Oklahoma have been updated to accommodate Intra-District Transfer.
- The 'Status' column has been removed from the Configuration (https://kb.infinitecampus.com/help/sif-unity-configuration) screen.

Currently, SIF Unity tools are only available in Virginia.

Path: System Settings > SIF Unity

SIF - Staff Personal Object Update (SIS-93341)

An issue with the seven-digit phone extension for the Other Phone field, which was causing an error in the Staff Personal object, has been corrected.

Path: System Settings > Data Interchange

Ed-Fi

Ed-Fi Resync Indicator Fix (SIS-174366)

In certain situations, the resync indicator in the Ed-Fi Event Queue (https://kb.infinitecampus.com/help/event-queue-ed-fi) would disappear while Campus was still determining which records to put in the queue. This issue has been corrected.

Path: Reporting > Ed-Fi > Event Queue

Food Service

Point of Sale Transactions Indicator (SIS-170942) **[Enhancement]**

A visual indicator has been added to the Point of Sale (https://kb.infinitecampus.com/help/cashier-cheat-sheet) terminal to show when a transaction was created on the Journal or other non-terminal sources.

Path: Point of Sale

POS 2.28.10 Version Update (SIS-188184) **[Enhancement]**

The following updates have been made to the Point of Sale (https://kb.infinitecampus.com/help/point-of-sale-pos) tool:

- Added terminal transaction history source labels for non-terminal transactions
- Updated code sign certificate for 2025
- Added an error log for POS Terminal
- Added file export option to POS Admin Manager

Path: N/A

FRAM

FRAM Verification Summary Count Correction (SIS-174995)

Resolved an issue in the FRAM Verification Summary (https://kb.infinitecampus.com/help/step-7-print-the-summary-report-fram) report to ensure only the most recent applications per household are counted.

Path: FRAM > Application Processing > Verification

FRAM Eligibility Import Wizard Loading Fix (SIS-189059)

Resolved an issue where the FRAM Eligibility Import Wizard would not load for districts with zero or one existing imports

Path: FRAM > Tools > Eligibility Import Wizard

FRAM Eligibility Import Wizard File Upload Restriction Removed (SIS-189112)

The FRAM Eligibility Import Wizard has been updated to no longer require a specific extension. Users can now upload tab-delimited files.

Path: FRAM > Tools > Eligibility Import Wizard

Grade Reporting

GPA and Class Rank Sync (SIS-188181) **[Enhancement]**

New State Edition functionality was added to capture and store class rank, weighted GPA, and unweighted GPA (https://kb.infinitecampus.com/help/gpa-calculations-in-campus) snapshots three times a year (January 30, June 30, and September 15).

- Sync job was implemented to calculate and pull the most current GPA and class rank for each student at each district within the state.
- District and State-level tables were created to store the data, including student information, date/time stamp, GPA, and Class Rank. The data syncs from the district level to the state level.
- Data is available at the district and state levels using Ad hoc Reporting.

Ad hoc Path: Reporting > Ad Hoc Reporting > Student > Learner Portfolio (District Edition) > Grade Calculation Snapshot

Messenger

Messenger Opt-Out Text Message Fix (SIS-188642)

Resolved an issue where household phone numbers were receiving Opt-Out text messages when end-dated household members demographics information was updated.

Path: Census > People > Demographics (https://kb.infinitecampus.com/help/demographics-start-here)

Messenger 2.0 Performance Tuning and Message Recipient Batch Improvements (SIS-188687) **[Enhancement]**

Enhanced the process of Messenger campaigns to batch insert message recipients to improve performance and addressed an issue that can result in terminated connections with very large recipient lists. Additionally, a potential blocking query was refactored out of the message creation transaction to avoid locking.

Path: Communication > Messenger > Messenger 2.0 (https://kb.infinitecampus.com/help/getting-started-with-messenger-20)

Navigation

Excluded Grade Levels Appearing in Advanced Student Search (SIS-169059)

Excluded grade levels were incorrectly appearing as an option in the Grade field of the Advanced Student Search. This issue was corrected.

Path: Search Tab > Advanced Search

OneRoster

OneRoster 1.2 - getTeachersForSchool (SIS-187301)

Previously, teachers populated in the getTeachersForSchool OneRoster endpoint if their child was enrolled at the school, even if the teacher didn't work there. This has been corrected. Only teachers with an active District Assignment are returned for that endpoint.

Path: Instruction > Instruction Settings > Digital Learning Applications Configuration > select a OneRoster connection that uses OAuth 2 > Edit > Troubleshooting Documentation > OneRoster API Documentation

OneRoster - Identity Management (Closed Beta) (SIS-188221) **[Enhancement]**

Updates have been made to the OneRoster API Documentation to make it easier for Digital Learning Partners to sync email address data for students and teachers. This feature is tied to the Roster Provisioning aspect of OneRoster, which does not require a Campus Learning license.

If Campus has enabled Identity Management for a Digital Learning Partner, an Identity Management option displays in the Data to Share section of a connection. When enabled, the partner can sync student email addresses back to Campus.

This functionality is in a Closed Beta testing period and is only available in select districts.

Path: Instruction > Instruction Settings > Digital Learning Applications Configuration > select a OneRoster connection that uses OAuth 2 > Edit > Troubleshooting Documentation > OneRoster API Documentation

Online Payments

Add Bank Account Selection (SIS-187881)

Onboarding has been updated for migrating customers allowing them to select a Primary Bank account from one currently setup rather than creating a duplicate bank account record.

Path: System Settings > Payments > Payments Setup (https://kb.infinitecampus.com/help/payments-setup)

Minimum Payment Fix (SIS-188623)

An issue was identified where migration was overriding the Minimum Payment to $0.50. This has been corrected.

Path: System Settings > Payments > Payments Setup (https://kb.infinitecampus.com/help/payments-setup)

Performance

Function Blocking SQL Performance Resolved SIS-188464

We have resolved an issue that was causing SQL blocking and performance problems.

Path: N/A

Scheduling

Walk-In Scheduler - Overlapping Sections Deletion (SIS-188420)

In the Walk-In Scheduler (https://kb.infinitecampus.com/help/walk-in-scheduler), overlapping sections set for replacement were not being deleted. This has been corrected.

Path: Student Information > General > Schedule > Walk-In Scheduler

Course Checkbox Value Correction (SIS-189033)

With a recent update, values of certain fields on the Course Information (https://kb.infinitecampus.com/help/course-information1) tool that previously saved as a numeric value were now saving as an alphabetic value, which caused reports to error.

This has been corrected to save the alphabetic values as a numeric value once again. A one-time script has been executed to update the incorrect records.

Path: N/A

School Store

QR Code for Public Store URL (SIS-150570) **[Enhancement]**

Added a Generate QR Code button for Public Stores.

Path: School Store > Administration > Settings (https://kb.infinitecampus.com/help/settings)

Public Store Accessibility (SIS-188607) **[Enhancement]**

The Public Store (https://kb.infinitecampus.com/help/public-store) feature has been enhanced to improve user experience and functionality.

Path: Public Store

Security

Email-Based Two-Factor Authentication Not Working for Some Districts (SIS-174982)

For some users, email-based two-factor authentication failed to display the proper authentication screen and send the authentication code email. This issue was corrected.

Path: User Management > Settings > Login Security Settings

Default Minimum Password Character Set to 8 Characters (SIS-185640) **[Enhancement]**

The default for the Minimum Password Characters field has been changed from 6 to 8 characters. Districts can increase this to more than eight characters if they choose, but they cannot go lower than eight characters. Users with passwords less than eight characters will be forced to create a new eight-character or greater password the next time their password is reset.

> NOTE: The Minimum Password Characters preference only applies to Campus-authenticated user accounts (SSO and LDAP are unaffected).

Path: User Management > Settings > Account Security Preferences

System Updated to Detect Comma and Use First IP in Header (SIS-187349)

Updates were made so that when a load balancer sends IPs in a comma-separated list, the comma is detected and the first IP is used.

State Edition - Course Management Tool (SIS-182663) **[Enhancement]**

The Course Code Setup tool has been replaced with the Course Management (https://kb.infinitecampus.com/help/course-management) tool. This tool allows courses to be created and managed at the state level and then pushed to district sites, providing consistent course offerings throughout the entire state. State Course Code information is published directly to districts. Course Master Information and Course Information is updated based on the State Course Code values. Use of Course Masters is not required to use this tool, as data is published to both tools.
