

# National Records Exchange Tool Rights

Last Modified on 12/14/2025 8:45 pm CST

National Records Exchange (NRE) allows student records to be exchanged among Campus districts across the nation. Any Campus district may participate in the [NRE](#), including districts that are currently DIS-connected to a Campus State Edition. This tool is only used to register for NRE.

See the [National Records Exchange](#) and [Student Records Transfer](#) articles to learn more about how this and related tools work together to facilitate the transfer of student records between Campus districts nationwide.

National Records Exchange - Registration & Router Status

The Campus National Records Exchange allows a district to register for the data exchange of student information (enrollment history, transcripts, names, grades, demographic data, etc.). Once registration has been verified and authorized by Infinite Campus, Inc., districts will be able to perform district-to-district student records transfers with other authorized Infinite Campus districts.

NOTE: Terms and Conditions must be accepted before a district can use National Records Exchange.

## Available Tool Rights

**System Settings > Data Interchange Administration > National Records Exchange** is used by Campus District Edition users to register to participate in NRE and to monitor Exchange Status.

Tool Rights must be assigned to staff responsible for requesting and releasing national records transfers. See the [Records Transfer Tool Rights](#) article for more information.

## Suggested User Groups

The district system administrator and their backup (if applicable) should be the only users with rights to the National Records Exchange tool.
