

# Data Import Wizard Tool Rights

Last Modified on 07/09/2025 1:20 pm CDT

The Data Import tool allows districts to import data from a third-party into Infinite Campus. Users can establish protocol settings and an import schedule so that files exported from the third-party system can be imported into Infinite Campus on an hourly, daily, weekly or monthly basis.

See the [Data Import Wizard](#) article for details on using the Data Import Wizard.

*Data Import Wizard*

## Available Tool Rights

R	W	A	D
<ul style="list-style-type: none"> <li>• Access and view the Data Import Wizard.</li> <li>• Browse for a file and upload it.</li> <li>• Test the Import.</li> <li>• Run the Import.</li> <li>• View the Data Import Report.</li> </ul>	<ul style="list-style-type: none"> <li>• Set the Import Schedule.</li> <li>• Enter settings for the import - server information, user name, etc.</li> <li>• Enter details about the Import Schedule.</li> <li>• Test the Connection.</li> </ul>	<ul style="list-style-type: none"> <li>• N/A</li> </ul>	N/A

## Suggested User Groups

Typically, users of these tools have already been assigned one or more Product Security Roles that grant administrative-level access; therefore, a user group assignment is not necessary.

If your district's needs are different, you may choose to create a group that meets those needs.

See [User Groups and Suggested Roles](#) for more information.
