

# Portal Display Options Tool Rights

Last Modified on 07/09/2025 1:21 pm CDT

The **Portal Display Options** allow schools to determine which tools and data are available in the Campus Student and Campus Parent Portals. This tool is scoped to the school selected in the Campus toolbar.

See the [Portal Display Options](#) article for details on the Portal Display Options tool.

**Portal Display Options** ☆ System Settings > Portal Preferences > Portal Display Options

Display Options determine what tools and data appear in the Campus Student and Campus Parent Portals. Display Options are set by Calendar/Structure using a Display Options Template created by the school. Each Calendar/Structure can be assigned to only one template. Select a Template to modify it or click New Template to create a new one. Select a Calendar/Structure to assign to a template and enable the calendar and terms. [Read More](#)

## Suggested User Groups

Typically, users of these tools have already been assigned one or more Product Security Roles that grant administrative-level access; therefore, a user group assignment is not necessary.

If your district's needs are different, you may choose to create a group that meets those needs.

See [User Groups and Suggested Roles](#) for more information.
