See the Portal Display Options article for details on the Portal Display Options tool.

Modify rights to at least one calendar in the school is required for this tool.

## **Suggested User Groups**

Typically, users of these tools have already been assigned one or more Product Security Roles that grant administrative-level access; therefore, a user group assignment is not necessary.

If your district's needs are different, you may choose to create a group that meets those needs.

See <u>User Groups and Suggested Roles</u> for more information.
