Portal Translation Language Setup and Translation Setup Tool Rights

Last Modified on 07/20/2026 1:49 pm CDT

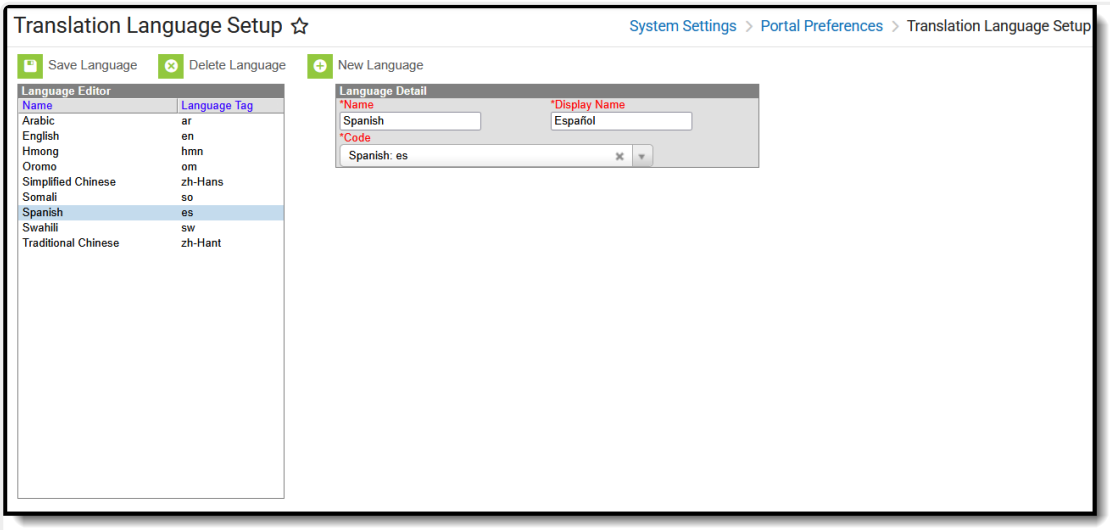

The Translation Language Setup and Translation Setup tools allow districts to provide content to students and parents in other languages for their Portal experience.

This article provides information on the necessary tool rights for the Translation Language Setup and Translation Setup tools.

Translation Language Setup

The Languages editor allows users to add languages and assign them a language code. Once a language is added, translations can be assigned for fields that display in Campus Parent and Campus Student.

> See the Translation Language Setup article for more information.

Translation Language Setup

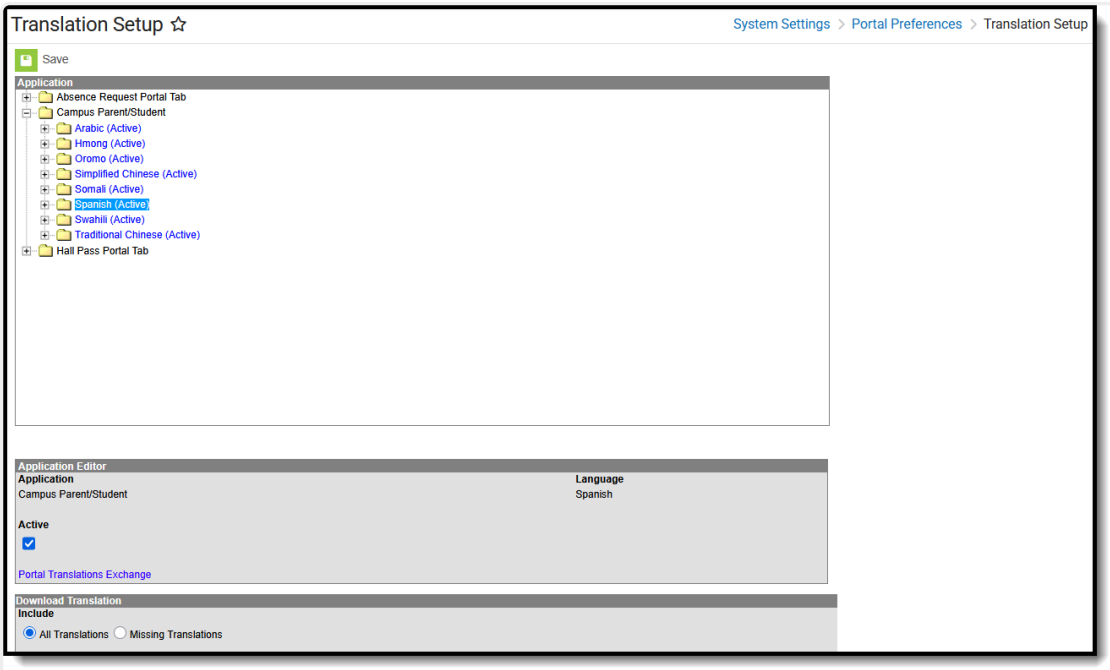

Available Tool Rights - Translation Language Setup

R	W	A	D
Access and view the Translation Language Setup tool.	Modify and save changes to the Language Detail.	Add and save a new language.	Delete languages when there are no existing translations for that language.

Translation Setup

The Translations tool allows you to enter a language translation for individual fields within a specific tool (module) or application. Once a language is created, translations are entered for field names, and the language is activated, users can select this language from a dropdown list at the bottom of the Campus login page.

See the Translation Setup article for more information.

Translation Setup

Available Tool Rights - Translation Setup

R	W	A	D
• Access and view the Translation Setup tool. • View the assigned translations for the selected fields in the selected language. • Download Translations for all translations or missing translations. • Browse and upload translation files.	• Modify and save translations for a selected field.	• Add and save new translation information for selected fields.	N/A

Suggested User Groups

Typically, users of these tools have already been assigned one or more Product Security Roles that grant administrative-level access; therefore, a user group assignment is not necessary.

If your district's needs are different, you may choose to create a group that meets those needs.

See User Groups and Suggested Roles for more information.
