Add Section Student Detail Records

Tool Search: Section Student Detail

The Section Student Detail tool allows districts to collect section data unrelated to scheduling on a student-by-student basis.

Overlapping records are not allowed. A message displays when the selected students have existing records that cannot be modified.

See the core <u>Section Student Detail</u> article for additional information.

- 1. Select the **New** button. The Section Student Detail side panel displays.
- Select a student from the Student(s) field. Multiple students may be selected.
 Note: Overlapping records are not allowed. Records currently existing for the selected student that have no End Date and a Start Date that is before the new Start date are auto-ended.
- 3. Enter the appropriate data for the selected student. At least one state reporting field must be populated to save the record.
- 4. Click Save.
