Choose the filters and options to apply to the Batch Update settings. Run the tool to update the applications with the options chosen that meet the selected parameters. A template can be applied by selecting it from the initial Batch Updates screen.

1. Click **New**
2. Select an **Update**. This will be the update that is applied to the selected applications. The following updates are available:
 - Set Application Status - Sets the Application Status of all applications found via the filters and options below to the Application Status of your choosing.
 - Set Response - Sets the Response of all applications found via the filters and options below to the Response of your choosing.
 - Lock Lottery Processing - Locks all applications found via the filters and options below from being processed in a lottery.
 - Unlock Lottery Processing - Unlocks all applications found via the filters and options below and allows them to be processed in a lottery.
 - Show Results in OLR - Show the lottery results in OLR for all applications found via the filters and options below.
 - Hide Results in OLR - Hide the lottery results in OLR for all applications found via the filters and options below.
 - Enable Allow Accept in OLR - Enabled the ability of a parent or guardian to accept their OE results for all applications found via the filters and options below.
 - Disable Allow Accept in OLR - Disabled the ability of a parent or guardian to accept their OE results for all applications found via the filters and options below.
 - Lock Application Changes - Lock all applications found via the filters and options below from having changes made.
 - Unlock Application Changes - Unlock all applications found via the filters and options below, and allow them to be changed.
3. Select a **Priority**.
 - Only applications for the selected Priority will be included. If blank, all priorities will be included.
4. Select a **Current Application Status**.
 - Only applications that currently have the selected Status will be included. If blank, all statuses will be included.
5. Select a **Current Response**.
 - Only applications that currently have the selected Response will be included. If blank, all responses will be included.
6. Select **Grades**.
 - Only applications for the selected Grades will be included. At least one Grade is required.
7. Select any of the available **Flags**.
 - If at least one Flag is selected, only applications for the selected Flags will be included. Flags are not required.
8. Select any **Preferences**.
 - Only applications for the selected Preferences will be included. At least one Preference is required.
9. Click **Preview** to run a mock update to ensure all the correct settings have been selected and the results are as you expect.
 - The Preview can be downloaded by clicking Export to PDF or Export Excel.
10. When everything is set, click **Update Records** and then **Update Applications**.
 - The application updates will appear on screen and can be downloaded using the export buttons.
