Release notes provide the applicable personnel the ability to review enhancements, modifications, and regulated changes prior to accepting an update. It is advised that users review the release notes carefully and alert appropriate district staff to changes in Campus.

The Release Information (https://kb.infinitecampus.com/help/release-information) article lists the approximate release date of all Campus releases. See the Rx Pack - Campus.2527 (https://kb.infinitecampus.com/help/rx-pack-campus2527) article for a list of Rx releases to the Campus.2527 release pack. Questions or concerns regarding an update should be directed to Campus Support. Academic Planning

Academic Planning Update (SIS-188466)

The Batch Program Assignment Wizard (https://kb.infinitecampus.com/help/batch-program-assignment-wizard) was not assigning 'Participant' status to students through the automated process. This has been corrected.

Student Information > Program Administration > Batch Program Assignment Wizard

Accessibility

Grade Book Accessibility (SIS-188537) **[Enhancement]**

Updates have been made to the Grade Book to improve accessibility, including keyboard navigation and screen reader usage.

Path: Instruction > Grades > Grade Book

Digital Learning Applications Configuration - Accessibility (SIS-188956)

Resolved an issue where screen reader focus became trapped behind the side panel in the Digital Learning Applications Configuration (https://kb.infinitecampus.com/help/learning-interoperability) tool.

Path: Instruction > Settings > Digital Learning Applications Configuration

Activity Registration

Missing Ad Hoc Tool Right for Activity Registration (SIS-182722)

Resolved an issue where users were missing an Ad Hoc tool right, preventing them from adding an Ad Hoc Filter when creating an Activity (https://kb.infinitecampus.com/help/activity-dashboard).

Path: Student Information > Activity Registration > Activity Dashboard

Ad Hoc Selection Required (SIS-188828)

Resolved an issue where adding a new proposal in Activity Registration (https://kb.infinitecampus.com/help/activity-dashboard) required an Ad Hoc selection, even when a Group Description was entered. The system now allows progression to step 3 after entering a Group Description without selecting an Ad Hoc filter.

Path: Student Information > Activity Registration > Activity Dashboard

Activity Registration & School Store Maintenance (SIS-189180)

The following updates have been made to the Activity Registration and School Store tools:

- Added new filters and statuses for the Activity Roster (https://kb.infinitecampus.com/help/activity-monitor).

Path: N/A

Assessment

Copied Tests Display Incorrect Year (SIS-173254)

Tests copied in the Assessment Center (https://kb.infinitecampus.com/help/assessment-center) did not reflect the correct test year. Logic for the test year was updated to account for any combination of years (YYYY-YYYY, YYYY-YY, YY-YYYY, YY-YY). The test year now displays correctly in the Assessment Center and Test Setup tools.

Path: Student Information > Assessment Administration > Assessment Center

Proficiency Levels Added to Ad Hoc (SIS-176015)

The Result Statuses section under the Test Information area of the Assessment Center was updated to include Proficiency fields in the Campus.2339 (https://kb.infinitecampus.com/help/release-pack-campus2339-september-2023#assessments) release. The fields are now available in Ad hoc Reporting (https://kb.infinitecampus.com/help/8ffa013):

- Proficiency Status = proficiencyValue
- Proficiency EL Status = proficiencyElValue

Ad hoc Path: Student > Assessment > All Tests > proficiencyValue/proficiencyElValue

Data Import Process Ignores Steps (SIS-176685)

Users can no longer advance to import after making changes in Step 1 of the Assessment Center (https://kb.infinitecampus.com/help/assessment-center-test-detail) process. 'Save & Test and 'Save & Batch Test' now require users to complete Steps 3-4 again if modifications are made in Step 1.

Path: Student Information > Assessment Administration > Assessment Center

Hidden Reason Code Attribute Still Displays (SIS-176686)

The 'Reason Code' attribute displayed under the Score Fields section of the Assessment Center (https://kb.infinitecampus.com/help/assessment-center-test-detail) when the 'Hide' checkbox was marked in the Attribute/Dictionary. This issue was corrected.

Path: Student Information > Assessment Administration > Assessment Center

Assessment Score Push Down Alert Not Linked to Assessment Center (SIS-178173)
[Enhancement]

Process Alert (https://kb.infinitecampus.com/help/message-center-1) hyperlinks that indicate a published assessment are now directed to the Assessment Center instead of the Test Setup tool.

Path: Message Center > Assessment Center

Attendance

Attendance Entry Wizard - Positive Attendance Course Population Issue (SIS-185638)

Resolved an issue where courses were not populating in the Attendance Entry Wizard (https://kb.infinitecampus.com/help/attendance-entry-wizard) when only one course was flagged for Positive Attendance.

Path: Attendance Office > Attendance Management > Attendance Entry Wizard

Campus Digital Repository

Student Identifier Generates Error (SIS-187160)

The Assessment Center (https://kb.infinitecampus.com/help/assessment-center) generated an error when users tried to save and import a file when 'Lastname, Firstname, Birthdate' was selected as the Student Identifier. This issue was corrected.

Path: Student Information > Assessment Administration > Assessment Center

Campus Digital Repository Transitioned to Off-Premise Cloud Storage (SIS-188913) **[Enhancement]**

The Campus Digital Repository has been transitioned to use off-premise cloud storage for all users.

Please see the Campus Digital Repository Off-Premise Document Storage (https://kb.infinitecampus.com/help/campus-digital-repository-off-premise-document-storage) article for a detailed description of this change and its impact on you.

Path: System Settings > Digital Repository > Digital Repository Preferences

Campus Instruction

Student Groups Redesign (SIS-177879) **[Enhancement]**

The Student Groups (https://kb.infinitecampus.com/help/student-groups) tool has been updated to improve the visual design of the tool. The tool now includes a Group View, which lists all of the groups for that section, the number of members, and available actions to take for that group. In the Student View, students are listed with their assigned groups.

The process for creating student groups from Score Analysis has also been updated to improve usability.

Path: Instruction > Students > Student Groups

Period Schedule Display and Section List Order (SIS-188805)

Previously, if a section was included in multiple period schedules, the name of one of the period schedules was appended to the section name in some Section dropdown lists, including in the Grade Book and Post Grades. Logic has been updated to clarify when the Period Schedule(s) should be listed for a section. If a Calendar has multiple Period Schedules and a section is not in all of them, the Period Schedule(s) are listed after the Section name in parentheses. Period Schedules are not listed in the following instances: a section is in all Period Schedules, a section is in only one of multiple Period Schedules, or a section is in multiple Period Schedules but all additional Period Schedules are marked as an Exception/Special Day schedule in the Period Setup tool.

Logic for the order in which sections are listed in these dropdown lists has also been updated. Sections are listed based on the Sequence of the Term, then whether the Period Schedule is marked as an Exception/Special Day, then by the Sequence of the Period Schedule, then by the Sequence of the Period, then by Course Number and Section Number. Note: the order of the Section list is determined the first time the sections are scheduled and does not change. So, if a section meets during different periods on different days of a Period Schedule, the Section list will stay in the same order based on the first day and not reorder for that day's schedule.

Path: Scheduling & Courses > Calendar Setup > Period Setup; Instruction > Grades > Grade Book

Flag Dropdown List Truncated (SIS-189163)

Previously, the Flags dropdown list in the Scoring screen was truncated on smaller screens or when zoomed in. The dropdown list now displays correctly.

Path: Instruction > Grades > Grade Book > click an assignment > Score

Campus Learning

New! Section Feed - Generally Available (SIS-187692) **[Enhancement]**

A new Section Feed (https://kb.infinitecampus.com/help/section-feed) tool has been released for Instruction users. This tool collects communications for a section, consisting of posts by teachers and students and their replies. Teachers can create posts and replies; students' communication options depend on the Section Feed Settings but may include posting, replying, and uploading attachments. To view a section's feed, click the speech bubbles icon in the Teaching Center or view the Classroom screen.

Section Feeds are enabled (https://kb.infinitecampus.com/help/enable-section-feed) for students and parents via the Portal Display Options. A Section Feed Administration (https://kb.infinitecampus.com/help/section-feed-administration-folder) tool allows admins to view feeds for sections and resolve flagged replies.

Path: Instruction > Overview > Teaching Center > click the speech bubble icon

Quiz Printing Feature (SIS-188352) **[Enhancement]**

Teachers can now print quizzes (https://kb.infinitecampus.com/help/create-quizzes) for students unable to use computers. Printed quizzes closely resemble the digital versions taken by other students. Teachers also have the option of printing an answer key that includes the answers and settings selected.

Path: Instruction > Curriculum > Curriculum List > select a Quiz assignment > Print

Quizzes - Manually Scoring Quizzes (SIS-188857) **[Enhancement]**

The process for manually scoring quizzes (https://kb.infinitecampus.com/help/score-quizzes) has been updated. To change the auto-calculated score for a question, click Edit Score and enter the new score. This process prevents auto-calculation logic from overwriting the manually-entered score if it is triggered again.

Path: Instruction > Curriculum > Curriculum List > quiz assignment > Score

Flags Dropdown Display Issue (SIS-189107)

Previously, the Flags dropdown list displayed behind other parts of the Submission Scoring screen. This has been corrected.

Path: Instruction > Grades > Grade Book > Evaluate Work > View Submissions

Campus Student/Parent

Campus Student/Parent - Toast Messages (SIS-189373) **[Enhancement]**

The toast messages that previously displayed for server errors in the top right corner of the screen in Campus Student and Campus Parent have been replaced by modal warnings for improved accessibility.

Path: Campus Student, Campus Parent

Centralized Cloud Services

All FOP Reports in Campus Now Generated via Centralized Services (SIS-187908) (SIS-184734) **[Enhancement]**

All FOP reports (including those sent to the batch queue) within Campus are now generated using a centralized service. FOP reports include PDF, RFT, and DocX format types. Other format types, such as HTML, XML, and SSRS reports, are excluded from this change.

You should not notice any discernible difference in performance, report look, or generation. Infinite Campus has active monitoring to ensure this service is performant and any issues that arise are quickly identified and resolved.

Path: N/A

FOP Reports to Now Generate Regardless of Missing Images (SIS-189535) **[Enhancement]**

Updates were made to FOP reports so that in the event that a report cannot access or locate a web image(s) included in the report, the report will still generate without the image(s).

Path: N/A

Cross-Site Enrollment

Cross-Site Enrollment Attendance on Attendance Change Tracking Report (SIS-186769)

Cross-Site Enrollment Attendance (https://kb.infinitecampus.com/help/cross-site-information-for-attendance) Add entries were not displaying on the Attendance Change Tracking Report (https://kb.infinitecampus.com/help/attendance-change-tracking-report). This has been corrected.

Path: Attendance Office > Reports > Attendance Change Tracking

Data Utilities

Data Extract Utility PULL Method Deprecation (SIS-189456) **[Enhancement]**

The PULL Method for the Data Extract Utility has been deprecated.

Path: System Settings > Data Utilities > Data Extract Utility

Dependent Care

Dependent Care Implementation (SIS-177907) **[Enhancement]**

Dependent Care (https://kb.infinitecampus.com/help/dependent-care-dashboard) is now available for use. Dependent Care assists school districts in offering school-age care for district students. Through this tool, school districts can:

- Schedule care for multiple scenarios through individual sessions
- Session rosters
- Offer payment, discount, and late fee charges
- Student Session attendance along with emergency contacts and authorized pickup persons
- Required registration forms

Path: Dependent Care

DIS/SIF

SIF - Student Academic Record Update (SIS-177230)

The logic for the StudentAcademicRecord/CourseHistory/Term/Courses/Course element in the Student Academic object (https://kb.infinitecampus.com/help/core-sif-studentacademicrecord) has been updated to report only when the grading task tied to the course is marked as ‘State Reported’.

Path: System Settings > Data Interchange Setup

State Edition DIS Object Trigger Update - VaccineShot (SIS-185229) **[Enhancement]**

The logic for syncing the VaccineShot database object between the district and state editions was

updated to send data via a database event change, in addition to the existing syncing methods of forcing a manual sync or saving on the UI.

See the Syncing Data Between District and State Edition article (https://kb.infinitecampus.com/help/syncing-data-between-district-and-state-edition) for additional information.

Path: No specific path

DIS - Performance Update (SIS-189298) **[Enhancement]**

The state DIS message queue has been updated to multithread processing for events that have different personGUIDs to improve processing performance.

The New Look of Campus Has Permanently Replaced Classic Campus (SIS-167618)

[Enhancement]

As of this release pack (Campus.2527), the New Look of Infinite Campus has permanently replaced Classic Campus and is now how Campus functions and looks moving forward.

This updated version of Campus provides numerous upgrades and advantages over Classic Campus, such as:

- A simplified navigation structure
- Responsive UI design
- A user-created menu of favorite tools
- Quick access to recently used tools
- Intuitive related tools toolbar
- Navigable breadcrumbs
- Robust in-tool person search
- A unified search menu for quickly searching a multitude of data
- A useful person information card

Course Management and Academic Planning Updates (SIS-189138)

The following updates have been made to the Add Course (https://kb.infinitecampus.com/help/add-course) Tool:

- The Add button is never disabled on the tool as long as the user has proper tool rights to add a new course.
- When the user clicks the Add button without selecting a course, a message displays indicating a course has not been selected.

The following updates have been made to the Academic Planning (https://kb.infinitecampus.com/help/academic-planning-student-information-best-practices-and-workflow) tools:

- For Graduation Programs, the name of the category is now included in the list of Academic Program Options.
- After saving, a new pop-up modal displays that lists all failed validations. When the user confirms the modal, the user is brought to the first error to correct the issue(s).
- Text has been added to the Student Status Requirements area to clarify the purpose of the card.
- For programs managed at the state level:
    - The district display of State Reported and State Managed fields now match the display at the state.
    - Program Criteria cards stopped publishing when the process encountered an error. This has been modified to continue publishing the information to the other cards, instead of stopping the entire publishing process.
    - Deleting a course requirement at the state did not remove that requirement at the district. This has been corrected.

Transportation

Transportation 2.0 (SIS-185497) **[Enhancement]**

DO NOT enable until you thoroughly review our resources (https://kb.infinitecampus.com/help/how-do-i-move-to-transportation-20#important-information-to-note-before-moving-to-transportation-20).

This upgrade brings valuable new features but will require careful preparation before enabling. DO NOT enable Transportation 2.0 (or assign tool rights for it) without reviewing our resources (https://kb.infinitecampus.com/help/how-do-i-move-to-transportation-20#important-information-to-note-before-moving-to-transportation-20). Once enabled, you cannot switch back to the previous version. Existing third-party integrations will break, and transportation data will no longer appear in the interface, with the exception of student parking data and parking documents. Previous transportation data will be available via Ad hoc reporting. Follow instructions (linked here (https://kb.infinitecampus.com/help/how-do-i-move-to-transportation-20#important-information-to-note-before-moving-to-transportation-20)) to enable Transportation 2.0.

Indiana

Indiana-Ed-Fi-Resources Updated for v7.3 (SIS-187050)

Indiana is upgrading to Ed-Fi API v. 7.3/ Data Standard 5.2. Ed-Fi resources (https://kb.infinitecampus.com/help/indiana-ed-fi-1) were updated to this version for the 2025-2026 school year. The following resources were implemented in Indiana as part of this update:

- Cohorts
- Staff Cohort Associations
- Student Cohort Associations
- Contacts
  - Reported as ‘Parents’ resource in 2024-2025.
- Student Contact Associations
  - Reported as ‘Student Parent Associations’ resource in 2024-2025.
- Course Transcripts
- Staff Section Associations
- Student Program Associations
- Grading Period
- Student Academic Records
- Discipline Incidents
- Student Discipline Incident Behavior Associations
- Staff Education Organization Assignment Associations

Additional Updates to support Ed-Fi reporting in Indiana:

- ‘Virtual Education Provider’ dropdown field added to the Virtual Education (https://kb.infinitecampus.com/help/virtual-education-indiana) program tool.
- 'Proficient - Evidence Reviewed’ checkbox added to the EL Services (https://kb.infinitecampus.com/help/el-services) detail editor.
- 'Student Education Organization Assessment Accommodations' resource renamed 'Student Accommodations'.
- Student Special Education Program Associations resource removed- Indiana is not sending this resource in the 25-26 school year.

A resync of Ed-Fi resources is needed for this update.

Indiana-Ed-Fi-Student School Graduation Plan Resource Implemented (SIS-188643)

A new resource, the Student School Graduation Plan, was implemented for Indiana to support reporting of the diploma type(s) students intend to pursue. The student's Intended Diploma Type is collected on Academic Programs (https://kb.infinitecampus.com/help/diploma-intention-indiana)(see SIS-189069). The Academic Programs must be created and associated with a Diploma Type prior to assigning them to students for the Student School Graduation Plan Ed-Fi resource to report.

Ed-Fi mapping options pull from the 'Diploma Type' associated with the Academic Program. For new Ed-Fi configurations, automapping of the Diploma Type to the Ed-Fi Code is set up. For existing Ed-Fi configurations, users must manually match the code column to the Ed-Fi code.

A resync is needed as part of this update.

Indiana-Academic Program Updated for Intended Diplomas (SIS-189069) **[Enhancement]**

The Academic Program (https://kb.infinitecampus.com/help/diploma-intention-indiana) tool was updated to document and support Ed-Fi reporting of intended diploma data as mandated by the Indiana Department of Education, starting with the 2025-2026 school year:

- 'DiplomaIntent: Indiana Diploma Intention' was added to the 'Program Type' dropdown.
- 'Diploma Type' dropdown field was added to the Program Details section. Field becomes active when the selected Program Type is "Indiana Diploma Intention".
- 'DiplomaIntent: Diploma Intention' was added to the 'Category' dropdown.
- 'Primary' checkbox was added to the Academic Programs Detail of the Programs tool.

The new fields/values are available in Ad hoc Reporting.

Oklahoma - Transportation Updates (SIS-185497ok) **[Enhancement]**

There will be a gap between when Oklahoma state reporting logic is being updated and when Transportation 2.0 is released. This means that enabling the new module before taking the planned RX will cause state reporting errors for Transportation and other state reports. Once you switch it on, you cannot revert. We are advising Oklahoma Districts **not** to enable the Transportation 2.0 module until after the state reporting logic has been vetted, tested, and the planned RX is released. Student Transportation has been updated to a new look. Once Transportation 2.0 is enabled, the previous Student Transportation tool and the Transportation Roll Forward Wizard will be hidden. This action cannot be reversed.
