

# SIF Unity (Maine)

Last Modified on 04/15/2026 12:47 pm CDT

This article provides information about SIF (Unity) for Maine, including object information and related tooling.

SIF is a standard for data interchange that allows two separate information systems to communicate with each other. SIF sets a standard messaging language and format that defines data objects commonly shared across student information systems and applications.

As long as both applications conform to the same SIF data interchange standards (such as those set by SIFA), communication between two systems designed by entirely separate vendors is possible.

SIF Unity tools are only available for SIF v3.6 or higher.

**Note:** Maine users do not need to import a certificate.

## SIF Object Information

The table below provides details of each object used in Maine SIF (Unity).

Object	Link to Document
Discipline Incident	<a href="#">Discipline Incidents</a> 
LEA Info	<a href="#">LEA Info</a> 
School Info	<a href="#">School Info</a> 
Student Participation	<a href="#">Student Participation</a>  <div data-bbox="587 1424 1110 1704" style="border: 1px solid #ccc; padding: 10px; margin-top: 10px;"> <p><b>Note:</b> In order for FRAM records to report, the Alternative Economic Form checkbox must be marked. This checkbox must be manually checked for records added via the Import Wizard.</p> </div>
Student Personal	<a href="#">StudentPersonal</a> 
Student School Enrollment	<a href="#">Student School Enrollment</a> 

## Additional SIF Unity Tools

The SIF Unity tools allow users to set up, manage, and maintain SIF data.

SIF Unity Configuration	SIF Unity Tools
