

SIF Unity (Oklahoma)

Last Modified on 04/29/2026 8:43 am CDT

This article provides information about SIF (Unity) for Oklahoma, including object information and related tooling.

SIF is a standard for data interchange that allows two separate information systems to communicate with each other. SIF sets a standard messaging language and format that defines data objects commonly shared across student information systems and applications.

As long as both applications conform to the same SIF data interchange standards (such as those set by SIFA), communication between two systems designed by entirely separate vendors is possible.

SIF Unity tools are only available for SIF v3.6 or higher.

SIF Object Information

The table below provides PDFs detailing each object used in Oklahoma SIF (Unity).

Object	Link to Document
Attendance Code Info	Attendance Code Info
