

Add/Remove Certification Category Members (District Edition)

Last Modified on 09/05/2025 11:10 am CDT

Tool Search: Certification Category

Certification Categories are published down from the state and allow schools/districts to define which users are allowed to review and/or certify data certification events tied to the category.

This article will explain how you can add or remove staff members from certification categories.

Data Certification tools are only available for districts connected to a State Edition of Campus that have purchased the [Campus Data Suite](#).

For help in understanding the data certification process, see the [Data Certification Event Workflow \(District Edition\)](#) article.

Prerequisites

- Certification categories must be published down from the State. If this tool is showing blank, the state has not yet published any categories.
- Users must be assigned tool rights to the Certification Category tool.
- [Email Messenger](#) must be enabled and configured for category members to receive email notifications of state-published data certification events.
- All users assigned membership to a data certification category must have a valid email address entered on the [Demographics](#) tab. This ensures email notifications about events are sent and received accordingly.
- A user must be given tool rights to the Certification Event tool to view and/or certify a data certification event.

If adding members at the district level:

- All people listed as a Certifier MUST submit certification on all events for the category marked as Active.

If adding members at the school level:

- All people listed as a Certifier MUST submit certification on all events for the category marked

as Active.

- Each member must have either All Schools or individual school calendar rights assigned.
 - If a staff member is assigned calendar rights to an individual school and needs to also review or certify events at another school, you should enter one record for each school.

- **NOTE**—Assigning someone as a Certifier with All Schools calendar rights will require the person to submit certification for every school in the district tied to the Data Certification Event (not recommended).

- This tool requires full rights (read, write, add, delete) for all reviewers and certifiers.
 - Reviewers can only view event data.
 - Certifiers can view the data and take actions on the event (Submit Certification to State or Request Recertification from State)

Add a Certifier/Reviewer to a Category

1. Navigate to the Certification Category tool (Reporting > Data Certification > Certification Category).
2. Click on the category. The category membership screen appears.

Certification Category ★ Reporting > Data Certification > Certification Category

Certification Categories

Name	Level	Status
Preschool Enrollment Count	District	INACTIVE
Preschool Spring Enrollment	District	ACTIVE

1 - 2 of 2 items

3. Click **Add Member**.

Certification Category ★ Reporting > Data Certification > Certification Category

Name *
Preschool Spring Enrollment

Active ☒

Category Level
District School

Staff, Amy Staff State ID N/A	Role Certifier Reviewer	Active <input checked="" type="checkbox"/>
Person, Jared Staff State ID N/A	Role Certifier Reviewer	Active <input checked="" type="checkbox"/>
Doe, Helen Staff State ID N/A	Role Certifier Reviewer	Active <input checked="" type="checkbox"/>

Save Cancel Add Member

4. Search for the staff member and once found, click their name to add them to the category. Repeat this step until all necessary people have been added. Click **Close** when finished.

Certification Category ★ Reporting > Data Certification > Certification Category

Name *
Preschool Spring Enrollment

Role	Details
Certifier	Staff members who are allowed to approve the school or district's event certification data. <div> Certifiers MUST have full tool rights to the Certification Event tool. </div>
Reviewer	Staff members who are allowed to review a school or district's event data for accuracy but cannot approve it. <div> Reviewers MUST have at least Read and Write rights to the Certification Event tool. </div>

6. If the Category Level is set to School, select which school the person will have rights to certify or review. If this person should certify or review all schools in the district, select **All Schools**.

Certification Category ★ Reporting > Data Certification > Certification Category

Name * School Level Category Active ☒ Category Level District School

Johnson, Person Staff State ID N/A Role Certifier Reviewer Active ☒

School

- All Schools
- All Schools
- District Level - EL
- North Star 7-8
- North Star High School
- North Star School

7. Mark the **Active** checkbox next to each person who should actively have access to review/certify events tied to this category.
8. Click **Save**.

Remove Certifiers/Reviewers from a Category

1. Navigate to the Certification Category tool (Reporting > Data Certification > Certification Category).
2. Click on the category. The category membership screen appears.

Certification Category ★ Reporting > Data Certification > Certification Category

Certification Categories

Name	Level	Status
Preschool Enrollment Count	District	INACTIVE
Preschool Spring Enrollment	District	ACTIVE

1 - 2 of 2 items

3. Uncheck the **Active** checkbox for each person who should no longer have access to review or certify events tied to the category.
