

Enable Section Feed

Last Modified on 06/27/2025 10:38 am CD7

In Portal Display Options | In CDR | Section Feeds in Campus Student/Parent

This tool is available as part of the <u>Campus Learning</u> premium offering.

Location: Teaching Center > Click the speech bubble icon

A Section Feed is the collection of communications for a section. The feed consists of posts and their replies. Teachers can create posts and replies; students' communication options depend on the Section Feed Settings but may include posting, replying, and uploading attachments.

To view a section's feed, click the speech bubbles icon in the Teaching Center. A Section Feed side panel displays.

The Section Feed allows a teacher to communicate with students and parents in a class.

There are no specific tool rights needed for teachers to access Section Feeds. The tool is either turned on for a district or not. For administrators, the **Section Feed Administration** tool rights in Instruction > Settings grants full access to that tool.

See the Instruction Tool Rights article for more information.

In Portal Display Options

Tool Search: Portal Display Options

Section Feeds are available for all teachers. For students and parents to see Section Feeds, the tool must also be enabled in <u>Portal Display Options</u>. These options are managed by school/district personnel, not by teachers.

Section Feeds can be enabled for students and parents separately. If Parent is enabled, an additional option controls whether parents can see comments from other students in the class and whether those students' names display with their comments.

Enable Section Feed in Digital Repository Preferences	

To allow teachers and students to upload Campus Digital Repository files in Section Feed post and replies, enable **Section Feed** in the <u>Digital</u> <u>Repository Preferences</u>.

Section Feeds in Campus Student/Parent

Once enabled, students and parents view the Section Feed by clicking the name of the course anywhere in Campus Student or Campus Parent. The Section Feed displays in the Classroom tab with the other course information.
