

# Cross-Site Score Groups & Rubrics Tool Rights

Last Modified on 07/02/2025 1:45 pm CDT

[Available Tool Rights](#) | [Suggested User Groups](#)

Cross-Site Enrollment allows schools to manage situations such as tracking and reporting on students who attend courses offered by other schools, or allowing students from other schools to take classes they offer at their own school. Grades earned by a student at a Serving School are visible at the Home School in the [Grades](#) tool, [Report Cards](#), and [Transcripts](#). For grades to flow from Serving to Home, connections must exist between grades and grading alignments. Mappings determine how grades from the Serving School are received by the Home School.

See the [Cross-Site Score Groups & Rubrics](#) article to learn more. Also review the [Cross-Site Enrollment Overview](#) article, which outlines the entire Cross-Site Enrollment process.

Users **MUST** select a Year, School and Calendar (and Structure when applicable) to display information.

Schools must enable and configure Cross-Site Enrollment as outlined in the [Cross-Site Configuration](#) article. The user or users responsible for this configuration will need to be granted rights to these tools.

**Read** rights to the [Grading Task Setup](#) tool are needed to view the Default Score Groups tab.
