

Cross-Site Score Groups & Rubrics Tool Rights

Last Modified on 12/14/2025 8:45 pm CST

Cross-Site Enrollment allows schools to manage situations such as tracking and reporting on students who attend courses offered by other schools, or allowing students from other schools to take classes they offer at their own school. Grades earned by a student at a Serving School are visible at the Home School in the [Grades](#) tool, [Report Cards](#), and [Transcripts](#). For grades to flow from Serving to Home, connections must exist between grades and grading alignments. Mappings determine how grades from the Serving School are received by the Home School.

See the [Cross-Site Score Groups & Rubrics](#) article to learn more. Also review the [Cross-Site Enrollment Overview](#) article, which outlines the entire Cross-Site Enrollment process.

The screenshot shows the 'Cross-Site Score Groups & Rubrics' tool interface. At the top, there are two tabs: 'Score Mapping' (selected) and 'Default Score Groups'. The 'Score Mapping' tab displays a table with columns: SERVING DISTRICT, SERVING SCORE GROUP/RUBRIC, HOME SCORE GROUP/RUBRIC, MAPPING STATUS, and ACTIONS. One row is shown: 'West High' in the Serving District, 'NC 4 pt Scale' in the Serving Score Group/Rubric, 'NC 4 pt Scale' in the Home Score Group/Rubric, 'Complete' in the Mapping Status, and 'Edit' and 'Delete' buttons in the Actions column. Below this is a large table titled 'Cross-Site Score Groups & Rubrics' with a sub-section 'Cross-Site Score Mapping'. This table has columns: SCORE, COEFF., VALUE, and a dropdown column. The data is as follows:

SCORE	COEFF.	VALUE	
100	100	✓	1 99.5 4 100
99	99	✓	1 98.5 4 99
98	98	✓	1 97.5 4 98
97	97	✓	1 96.5 4 97
96	96	✓	1 95.5 4 96
95	95	✓	1 94.5 4 95
94	94	✓	1 93.5 4 94

Users **MUST** select a Year, School and Calendar (and Structure when applicable) to display information.

Schools must enable and configure Cross-Site Enrollment as outlined in the [Cross-Site Configuration](#) article. The user or users responsible for this configuration will need to be granted rights to these tools.

Read rights to the [Grading Task Setup](#) tool are needed to view the Default Score Groups tab.
