

Cross-Site Course Master Batch Enable Tool Rights

Last Modified on 07/02/2025 1:48 pm CDT

[Available Tool Rights](#) | [Suggested User Groups](#)

The Course Master Batch Enable tool provides the ability to enable Cross-Site Enrollment functionality for the selected course masters at one time, without marking that course master manually for each course master that needs to be enabled to allow sharing of courses.

See the [Cross-Site Course Master Batch Enable](#) article to learn more. Also review the [Cross-Site Enrollment Overview](#) article, which outlines the entire Cross-Site Enrollment process.

Cross-Site Course Master Batch Enable ☆

Grading & Standards > Cross-Site Mapping > Cross-Site Course Master Batch Enable

When Cross-Site Enrollment is enabled, other schools participating in Cross-Site Enrollment can schedule students into this course. Use the Push All Course Masters tool and select the option to Push Cross-Site data to courses and sections to enable the Cross-Site Enrollment setting on the Course and Section Information tools. Responsive courses cannot be offered for Cross-Site Enrollment and are excluded from this tool.
