The Push All Courses tool pushes grading setup to all course sections in the calendar selected in the context switcher. Assign these rights with caution, as pushing changes once classes are in session may affect grade calculations.

See the [Push All Courses](#) article to learn how to use this tool.

Push All Courses

This tool batch pushes categories, composite grades, and grade calc options for all courses to sections for the current calendar year. This tool will not add duplicated categories.

Note: Quartz must be enabled to submit batch jobs. If the job does not appear in the Batch Queue List after submitting, Quartz is likely disabled.
