Tool Search: Graduation

The Graduation tool allows districts to track graduation information used in state reporting, AYP (Average Yearly Progress) determinations, and NCLB (No Child Left Behind) report cards. Districts can track when a student first entered ninth grade and calculate his/her expected graduation date. Collected graduation data varies by state. This article contains information specific to **Delaware**.

Refer to the core [Graduation](#) article for general information on the Graduation tool.

The screenshot shows the 'Graduation' tool interface for a student named 'Student, Example'. The interface includes a 'Save' button and a 'Related Tools' link. The main content area is divided into several sections:
