This version of OLR is compatible with Campus.2523 and later.

Enhancements

- With OLR 6.5.0, we are releasing the new Open Enrollment functionality! (CDP-4216)
    - Open Enrollment allows districts to create Open Enrollment applications and run lotteries for their available seats. It is integrated with OLR Prime to make a seamless workflow for both parents and staff.
    - This will eventually replace the School Choice functionality, but both will co-exist for a period of time.
    - **Please note:** The old School Choice and new Open Enrollment features cannot be used together. Only one of these can be active at a time.

- For more information about Open Enrollment, please review the details on Open Enrollment, Open Enrollment Setup, and Open Enrollment Templates.

- The OLR Literals Bank will now use the WYSIWYG Editor for the majority of its literals. Any existing HTML will still function, but any newly entered HTML moving forward will not work. Some literals will not use the WYSIWYG Editor to preserve functionality/overall formatting of the OLR Application. (CDP-4033)

Fixes

- Fixed an issue where end-dated relationships between a student and guardian in the household were pulling in incorrectly. (CDP-4200)
- Fixed an issue where certain address fields were not actually required, even if marked as such. (CDP-4204)
