

## Health Screening Batch Entry Wizard Tool Rights

Last Modified on 07/16/2025 9:09 am CDT

The **Health Screening Batch Entry Wizard** allows health staff to quickly mass-enter results of screenings that occurred on the same date with the same results for a selected group of students, either by grade level or class. Individual student screening records can be edited in the Health Screenings tab.

See the <u>Health Screening Batch Entry Wizard</u> article to learn how to use this tool.
